Hei I hope you understand English! I have a question on the water/water discharge fee.

In the last year the fee was lower even though the estimated quantity (ikke vannmåler) was higher. My Kundenummer is 506353.

The fee last year (per quarter) 2278,75 kr for estimated 186 m³

The fee this year (per quarter) 2509,85 kr for estimated 150 m³

I would be glad to understand this, thanks in advance for your assistance!

Vennlig hilsen,

Andre Ratzenberger
