

Til ordførere

17. mai har vært feiret i over 200 år. I 1833 holdt Henrik Wergeland den første 17.mai-tale i hovedstaden Kristiania og tradisjonen er i stor grad blitt holdt i hevd gjennom generasjoner frem til i dag. Min mor var vitne til at tyske bombefly fløy inn over Oslo 9. april 1940. Det ble fem år uten offentlig 17.mai-feiring i hovedstaden. «Aldri mer» er blitt stående i bevisstheten etter krigen med et ønske om at vi aldri mer måtte oppleve 9.april. Likevel opplevde vi nedstengingen 12.mars 2020. Barnas dag, 17.mai, er nå blitt avlyst to år på rad. Barna er de største taperne i koronatiden.

Til deg som kommunens øverste politiske ansvarlig; ***Vi skal alle se barna i øynene om noen år og da må vi kunne fortelle de at vi handlet på grunnlag av god kunnskap og ikke kun på antagelser og tro.*** Mitt ønske er at du nå tilegner deg kunnskap og viser handlekraft så barna i langt større grad igjen får den barndommen de fortjener.

Vedlegget med varsel om ansvarspådragelse nevner særskilt testing og vaksinerings. Nå må vi spesielt beskytte barna mot dette! Det er ikke noe medisinskfaglig grunnlag som tilsier at tiltakene er berettiget verken overfor barn eller voksne.

Samfunnet generelt taper også mye pga tiltakene og tapene er ennå ikke kjent i sitt fulle omfang. Tiltakene; testing, vaksinerings, karantene osv må stanses for i størst mulig grad begrense skadeomfanget!

Bes journalført.

Med vennlig hilsen

Per Halle

FROM:

Per Halle, sui juris, a man, hereby claiming all rights and remedies reserved

Hereinafter: Claimant/Libellant

NOTICE TO RESPONDENTS/LIBELLEES

This document and attachments are presented with honorable and peaceful intentions and are expressly to provide you with due process for your benefit and a good faith opportunity to state a verified claim. It is not Claimant/Libellant's intention to harass, intimidate, offend, conspire, coerce, cause anxiety, alarm or distress.

This legal and lawful Notice of Liability is designed to be used as evidence in court if needed and intends to enlighten you and protecting you from attracting civil and criminal liability in relation to you action and all omissions in relation to the alleged SARS-CoV-2 (alleged) pandemic and the measures that have/are being taken worldwide to allegedly control its spread and effect.

PREAMBLE

WHEREAS, it appears there is a worldwide agenda threatening the whole of the earth and its life giving resources to the livelihood of all life forms, sentient beings, living men, women, sons and daughters their life, health, vitality and procreative abilities through electronic AI control that connects billions upon billions of wireless infrastructure, systems, programs, devices, structures, equipment, objects, artificial intelligence (AI), artificial entities, without limits, to a so-named cloud-based “**Internet of Things**” (IoT), and thus exposing them and the entire earth to unprecedented levels of injurious and unnatural electromagnetic radiation and fields of every kind; and,

WHEREAS, it appears this same worldwide agenda also causes trespass, injury, bodily harm, and damages and threatens free will, autonomy, sovereignty and medical decision of the living men, women, sons and daughters by melding man with AI components that data-mine, track, trace, surveil, limit, and

control, without limits. These electronic medical and experimental devices consist of infrared temperature guns, PCR tests, viral testing, contact tracing, smart masks, masks, injectables, ingestables, embeddables, wearables, inoculations, vaccines, experimental mRNA/DNA gene editing/modifying technologies, bioengineered materials, micro-chip implants, chipping, RFID, ID2020, identification technologies, nano-technologies, micro-needling, advanced polymers, hydrogels, luciferase dye, without limits, to a so-named cloud-based “**Internet of Bodies**” (**IoB**); and,

WHEREAS, it appears the so-named “**Internet of Things**” (**IoT**) and the “**Internet of Bodies**” (**IoB**) agendas are designed to work synergistically and are found to be injurious to all living things when exposed to its multiple vectors of harm, the chemical, electromagnetic, metals, toxins, medical, biomedical, biotechnologies, bioengineering components, products, procedures and programs associated with these agendas, which henceforth shall be referred to as the so-named **IoT & IoB**; and,

WHEREAS, it appears the so-named IoT & IoB agenda and parts thereof do cause trespass, transfect, violate, assault, tort, harm, injury and possible death to the physical body, original genome, genetic integrity, genetic health, reproductive health, health, vitality, well-being, emotional, mental and psychological health, and etheric bodies of the men, women, sons and daughters, the vulnerable, ill, disabled, and targeted, as well as create other forms of harm, injury and trespass by breach of safety, privacy, security, cyber-security, surveillance, data and biometric harvesting, harassment and targeting by weaponized technology; and,

WHEREAS, it appears the so-named IoT & IoB agenda was/is masterminded, designed, developed, created, sponsored and promoted by international and national government agencies, in particular, the so-named “United Nations” (UN) and branches of it, but not limited to these, the so-named “International Telecommunications Union” (ITU), “United Nations Educational, Scientific and Cultural Organization” (UNESCO), “World Health Organization” (WHO), “World Economic Forum” (WEF), “The North Atlantic Treaty Organization” (NATO), “European Union” (EU), which shall henceforth be collectively referred to as the so-named UN et al.; and,

WHEREAS, it appears the so-named IoT & IoB agenda is also known as the so-named “Agenda 21”, “Agenda 2030”, “Fourth Industrial Revolution”, “Internet of Everything”, “ID2020”, “5G IoT”, “AI-5G-IoT”, “Blockchain City”, “Global City”, “Smart IoT”, “Smart City”, “Smart Grid”, “Centralized Cloud”, “The Cloud”, “Sustainable City”, “Sustainable Development”, “New Urban Agenda”, “Asgardia”, “Artificial Intelligence”, “AI is the New Green”, “AI Singularity”, “Artificial Superintelligence” (ASI), “Trans-humanism”, “Technocracy”, “One World Government”, “New World Order”, “The Green New Deal”, “Geospatial Intelligence Singularity” (GEOINT); and,

WHEREAS, it appears the so-named UN et al.’s universal “Agenda 2030’s” sustainable development and sustainable cities involve deploying wirelessly accessible ID related chipping, dye-enhanced, tracking, tracing, gene-editing/modifying technologies, inoculations, vaccinations, the so-named “Telehealth”, “Telemedicine”, “Commons Project”, “Common Trust Network”, “World Economic Forum”, wireless deployment infrastructures of all kinds, and aerosolized plasma field projections of all kinds will all serve as integrated parts into a whole referred to as the so-named IoT & IoB, which do give rise to harm of trespass and injury of all kinds for all living sentient creatures, men, women, sons and daughters, and the whole of the earth; and,

WHEREAS, it appears as part of the so-named IoB, the gene-editing/modifying technologies, inoculations, injections, vaccinations, experimental medical and biomedical products, procedures, and programs, also known as “Korona sertifikat” “Vaccination Credential Initiative” (VCI), “Daily Pass”, “Freedom Pass”, “Green Pass”, “Passport Certificate”, “Digital Vaccination Passport”, “Vaccination Record Passport”, “Vaccine Passport”, “CommonPass”, “CommonHealth”, “Health Passport”, “Vaccine Certificate”, “Immunity Passports”, “Immunity Certificate”, “Digital Health ID”, “Digital Health Pass”, “Digital Health Credential”, without limits, are designed to interconnect with the so-named IoT; and,

WHEREAS, it appears the so-named World Health Organization (WHO) acknowledges and accepts there are health consequences, morbidity, disease and death related to complications from vaccines and injury

from radio-frequency radiations, and other waveforms and vibrations, without limits, as found listed in the ICD-10 Code Book the, “**International Statistical Classification of Diseases and Related Health Problems**”; and,

WHEREAS, it appears if any man or woman has full knowledge of a potential harm, whether or not caused directly by the man or woman and is endowed the ability and or duty to act upon the said knowledge in a way to avoid the potential harm but fails to undertake said actions, is liable for the inevitable harm caused, and or may be found negligent where there is a duty of care; and,

WHEREAS, it appears that there is no bond of record in existence, nor any source of indemnification regarding the so-named IoT & IoB which is considered causing tort, damage and harm of all kinds; and,

WHEREAS, it is a fundamental principle of law that nobody is above the law including, but not limited to, all government actors; and,

THEREFORE I, Claimant/Libellant, do hereby issue and serve by delivery, this instant contractual **NOTICE OF LIABILITY FOR NON-CONSENT & INJURY** to the above named and unnamed Respondents/Libellees as the situation requires.

SITUS

Governing Law

This instant Contract, hereinafter known as the “Contract”, initiated by Respondents/Libellees, is created pursuant to the signatory’s right of contract. The terms “you”, “your”, and “yours” refers to each Respondent/Libellee named and additional Respondents/Libellees yet to be named in the Contract individually and collectively.

Restriction of Jurisdiction

You agree that the Contract shall not be deemed to be subject to the laws of the Federal Government, any State, political subdivision thereof, nor any other legal fiction, procedural process, political construct, nor any other jurisdiction, real or imagined, unless such election is voluntarily made in writing by the Claimant/Libellant or his/her agents(s). You agree that no person(s) shall have powers, interest or authority to amend, alter, modify or terminate the Contract without the expressed written consent of the Claimant.

Joining the Contract

It is agreed that a joinder fee shall be established in the amount of 20 million NOK, of a party not named herein, which attempts to impair this Contract or stultify any of the parties thereto; and that this fee shall be due from said party.

Guarantees & Waiver of Benefits

Guarantees for this instant action are the 1611 King James Bible, The Common Law and Law Merchant, the Uniform Commercial Code, case law, Constitutional Oaths of Office, and in reference to “den norske Grunnloven”, US agencies, the United States Constitution and The Bill of Rights. Sworn oaths are made exclusively upon the 1611 King James Bible and all specific Bible references made in this Contract reflect this and are used for jurisdictional purposes.

NOTICE

PLAIN STATEMENT OF FACTS

1. Living men, women, sons, and daughters are the highest jurisdiction of law on Earth.
2. The Living men, women, sons, and daughters do not give consent to release control of their bodies, sovereignty, autonomy, natural rights, intent and will to any entity, organization, authority figures that give rise to harm.
3. The Living men, women, sons and daughters do not give consent to allowing their bodies for unholy manipulation or medical perversions of any kind, the DNA, cellular, tissue, whole body, mind and spirit manipulation that comes from exposures to harmful medical vectors and procedures, vaccine material, electromagnetic radiation of all kinds, infrared temperature guns, insertion, swabbing, rubbing, ingesting, injecting, embedding, micro-needling, tattooing of any chemicals, gels, hydrogels, polymers, metals, adjuvants, preservatives, genetic materials of animal, human, viral, microbes, without limits, are all strictly forbidden and goes against the nature of man, common law, laws of creation, nature's law, laws of nature, God's laws.
4. The Common Law is the highest jurisdiction of man-made law and jurisprudence for the men and women sojourning on the landmass commonly referred to as earth.
5. The Law Merchant is tied to the Common Law and is the highest jurisdiction of man-made law for the men, women, sons and daughters sojourning on the landmass commonly referred to as earth concerning commerce and associated contracts, bills, commercial instruments, jurisprudence et al.
6. The Uniform Commercial Code is code accepted or partially accepted by agreement of the various jurisdictions regarding commercial contracts, commercial instruments, transactions, et al.
7. The Common Law reflects the Laws as recorded in the group of books commonly referred to as The Holy Bible and is verified by Sir William Blackstone in his published "Commentaries on the Laws of England" which were instrumental to the Founding Fathers in the framing and establishing of several country's jurisprudence.
8. *There are references to a higher jurisdiction in many countries' laws, including but not limited to; The Laws of Nature and of Nature's God, endowed by their **Creator** with certain unalienable Rights, appealing to **the Supreme Judge of the world** for the rectitude of our intentions, with a firm reliance on the protection of **Divine Providence**.*
9. **The so-named Monarchs of the United Kingdom of Great Britain & Northern Ireland past and present must swear an oath to uphold and defend the laws as recorded in the letters patent 1611 King James Bible and the Common Law.**
10. If any Respondent/Libellee has sworn an oath of office to support and or defend a higher jurisdiction, the Constitution, the Claimant/Libellant hereby accepts their oath of office.

When it is proven, by tacit agreement or otherwise, that the so-named IoT & IoB agendas being implemented worldwide specific to the actions taken by the US Federal Communications Commission (FCC) et al., and proven tacitly or otherwise that the said agendas are assaults on the men, women, sons and daughters, and proven tacitly or otherwise that the said agendas are performing biomedical and or medical experimentation on men, women, sons and daughters without their full knowledge or informed consent, and without a medical license, are assaults on their real and other properties, are assaults by utilizing weaponized equipment, are a violation of personal information and privacy via data mining and non-consensual surveillance, are an endangerment to wild and domestic livestock, pollinating insects which affect agriculture/food supply, are a violation of the right(s) of privacy, safety, wellbeing, liberty, right to equitable contracts, and proven tacitly or otherwise that the said agendas and the various "legal" actions used to implement them are contrary to, and a collateral or direct attack upon, the United States Constitution and the common law of the people of earth, **there may be grounds for a Grand Jury indictment for treason**

CONDITIONAL ACCEPTANCE OF OFFERS TO CONTRACT

Binding Contract

This *International Commercial Claim/Lien Within the Admiralty Private Agreement and Disclosures, Notice of Liability*, with all attachments comprises a **binding contract** between Respondents/Libellees and the Claimant/Libellant for the purpose of establishing the honorable terms of the seller/buyer relationship you proposed, and eliminating faulty assumptions. It is referred to herein as the “Contract” although it is an inland claim which, when perfected, will constitute a lien against the parties as described hereunder. The terms “you,” “your,” and “yours” refer to each Respondent named and additional yet to be named respondents in the Contract individually and collectively.

Agreement & Waiver of Rights

If you agree with all of the terms of the Contract, you need not respond. Your silence will constitute your agreement and acceptance of all of the terms, statements and provisions hereunder as your complete understanding and agreement with the Claimant/Libellant and your waiver of any and all rights, remedies and defenses of protest, objection, rebuttal, argument, appeal and controversy for all time. You agree that your agreement, having been granted knowingly, voluntarily and with full disclosure, settles all matters finally and forever, and cannot be withdrawn.

Disagreement & Failure to Respond

You may disagree with any of the terms of the Contract by stating a verified claim with particularity (see *Stating a Claim* below). You and the Claimant/Libellant agree that a response which is *not* verified, or a response from a third-party agent lacking first-hand knowledge of the facts, will constitute your “failure to respond” as defined herein. If you fail to respond or state a claim by the indicated *Effective Date*, which is fourteen (14) days from the Respondents/Libellees date of this Contract, the Contract will become **binding** and fully enforceable in the admiralty venue as a maritime lien subject to levy, distraint, distress, certificate of exigency, impound, execution and all other lawful and/or commercial remedies.

Offer of Immunity—Stating a Claim

You may respond with a point-by-point rebuttal of the Contract sworn to be true, to which you attach certified factual evidence. In the event you decline this good faith Offer of Immunity, you agree with all terms, facts, statements and provisions in this Contract and your obligations hereunder.

Administrative Remedy Under Verified Seal

The Contract constitutes the Claimant/Libellant’s administrative remedy pursuant to your offer(s) to allow so-named IoT & IoB to be deployed, enforced, trespassed and or made operational. If you fail to respond, or fail to state a verified superior claim by the *Effective Date* as described, you agree that the Claimant/Libellant has exhausted his/her administrative remedy (his/her procedure to negotiate a satisfactory mutual settlement) and has stated a claim upon which relief can be granted.

Opportunity to Exhaust Your Administrative Remedy

If you fail to respond or state a verified claim by the *Effective Date* as described, you agree that you have failed to, and are forever barred from (“estoppel”), exhausting your administrative remedy, and therefore can never seek judicial intervention regarding the Contract now or at any time in the future.

Joining the Contract

You and the Claimant/Libellant agree that the joinder fee for any party not currently named on the Contract, seeking the privilege of joining the Contract, is hereby established at 10 million NOK per each attempt/event of impairment. It is agreed that any party that fails to timely pay a legitimate Bill for Damages caused by Respondent’s actions or inaction described in this Notice agrees to a right of lien having been created and perfected against that party.

Terms of Response

As with any administrative process, you may rebut the statements and claims in the Contract by executing a verified response, point-by-point with evidence that is certified to be true and in affidavit form, correct and complete, to be received by Claimants/Libellants no later than 17:00 on the *Effective Date*.

Non-performance

The terms “non-performance” and “failure to perform” are defined to mean failure to perform any obligation under this Contract on or before the *Effective Date* including, but not limited to, “failure to respond” to this Contract as that term is defined herein, failure to exhibit evidence of a superior claim upon request, purporting an unverified statement to be a claim, failure to verify a claim within twenty-four (24) hours of demand, failure to honor a pre-existing and or superior claim, and any other failure to perform an obligation under the terms and provisions of the Contract.

Failure to Respond

The term “failure to respond” means your failure by the *Effective Date* to respond to this Contract (silence) or “insufficiency of response” as that term is defined herein. You agree that failure to respond conveys your agreement with all of the terms and provisions of the Contract.

Insufficiency of Response

The terms “insufficiency of response” and “insufficient response” are defined to mean a response which is received by the *Effective Date* and which fails to rebut any of the *established* terms, provisions, statements or claims in the Contract, or offers blanket denials, unsupported rebuttals, inapposite rebuttals such as “not applicable” or equivalent statements, declarations of counsel and or other third parties who lack first-hand material factual knowledge, and or any rebuttal which lacks verification or an equivalent level of risk or fails to exhibit supportive evidence certified to be true, correct and complete under full commercial liability. You agree that any such response is deemed to be legally and lawfully insufficient to rebut the established statements in the Contract, thereby conveying your agreement with all of the terms and provisions of the Contract.

Tacit Agreement

You may admit to all statements and claims in the Contract by simply remaining silent. The parties herein agree that failure to respond or insufficiency of response as defined herein constitutes agreement with all terms, provisions, statements, facts and claims in the Contract.

Conditional Acceptance

The offer(s) from Respondent(s) to implement the so-named IoT & IoB and their public, private, school, work, commercial, education, governmental and or military use and interconnection to the worldwide agenda, is the commencement of a contract negotiation, or meeting of the minds. The contract becomes binding upon unconditional acceptance or performance.

Performance and Acceptance of Offer to Contract under Reservation of Rights

The Claimant/Libellant reserves the right not to be compelled to perform under any contractual agreement that has not been fully disclosed in the prescribed form as herein claimed.

Terms of Conditional Acceptance

Claimant/Libellant, all rights and remedies reserved, hereby notice Respondents/Libellees that your offer to contract is formally conditionally accepted under reservation of all immutable and natural rights without prejudice, whether expressed or not, and upon full disclosure of any and all perils involved with the so-named IoT & IoB and upon a point-by-point rebuttal of the attached affidavit, to which you attach certified factual evidence sworn to be true.

Should a Respondent/Libellee fail to meet the requirements as defined in the section *Insufficiency of Response*, such failure shall constitute Respondent/Libellee's full agreement with the following contractual terms in all jurisdictions:

1. The Claimant/Libellant does not consent to any part of the so-named IoT & IoB's agenda that uses experimental medical or biomedical products, procedures and programs that use gene-editing/modifying technologies, infrared temperature guns or swab, wipe, inoculate, inject, vaccinate, insert, embed, ingest, tattoo, trace, track and surveil.
2. Furthermore, any of these actions, without limits, is considered a trespass and direct violation of the Claimant/Libellant's full right to decide and choose medical procedures, application and ability to control what goes in, on, and around one's own body, and that of the body or bodies under the Claimant/Libellant's trust, guardianship, and or ownership of property.
3. Furthermore, the Claimant/Libellant will consider these actions as an imminent attack, assault and endangerment to the safety, security, privacy, autonomy and well-being of the Claimant/Libellant and self-defense will be exercised to protect Claimant/Libellant's corporeal body, and the body or bodies under the Claimant/Libellant's trust, guardianship, and or ownership of property.
4. The Claimant/Libellant does not consent to any part the product, procedure and programs of the so-named IoT & IoB's plans to microwave, chemical change, manipulate, electroporate, electrophorese the Claimant/Libellant's body and the body or bodies under the Claimant/Libellant's trust, guardianship, and or ownership of property their sub-atoms, atoms, molecules, RNA, DNA, genetic material, cells, organs, tissues, whole body systems, spirit, etheric and astral bodies.
5. The so-named IoT & IoB product in part or in whole, must not be installed, deployed, and or made operational near the Claimant/Libellant's corporeal body, and the body or bodies under their ownership of property, private dwelling, school, workplace, and or public areas where the Claimant/Libellant may sojourn.
6. The Claimant/Libellant does not consent to the so-named IoT & IoB's plans to deploy the products, procedure, and programs related to the COVID-19 vaccines including, but not limited to Comirnaty, COVID-19 Vaccine Moderna, Vaxzevria (previously COVID-19 Vaccine AstraZeneca), COVID-19 Vaccine Janssen, nose swabs, nasopharyngeal swabs for PCR test to diagnose people infected with "SARS-CoV-2" _
7. The so-named WHO, responsible for implementing the "**International Statistical Classification of Diseases and Related Health Problems**" for morbidity coding, recognizes a list of exposures that are billable found in the index of the **ICD** and **ICD-10** code book. In the code book are "complication" from the products "vaccines", and morbidity associated with exposures to "radiofrequency radiation".
8. In the case where the so-named IoT & IoB products has already been installed/operational without express consent, any original service contract between government agencies, utility, industry, industry, seller, and or product company, without limits, the account holder contract is deemed to have been breached, and therefore offending parties involved are subject to lawful remedies for breach of that contract.
9. Respondents/Libellees accept full liability in their personal and corporate capacity for any and all harm or loss caused by the so-named IoT & IoB products, for which remedy may be sought according to tort law, criminal law, strict liability, negligence and or ultra-hazardous activity.
10. Any component in whole or part of the so-named IoT & IoB products if already installed/operational at or near the Claimant/Libellant's corporeal body and the body or bodies under their ownership of property, private dwelling, school, workplace and or public area of the Claimant/Libellant, COVID-19 vaccines Comirnaty, COVID-19 Vaccine Moderna, Vaxzevria (previously COVID-19 Vaccine AstraZeneca), COVID-19 Vaccine Janssen, nose swabs, nasopharyngeal swabs for PCR test to diagnose people infected with "SARS-CoV-2" from the date of Binding Administrative Judgement as defined herein must be disassembled and removed within 60 days from the date of Binding Administrative Judgment as defined herein.

11. Any component in whole or in part of the so-named IoT & IoB products, if already installed/operational, and not removed within the 60 days of the date of Binding Administrative Judgment as defined herein, may be removed by a bonded, licensed and insured contractor and or company and or professional(s) designated by the claimant with the agreement of the respondent, and all expenses accrued for the removal shall be charged to and solely held responsible for payout by the Respondents/Libellees.
12. No fees may be charged to the Claimant/Libellant for not accepting the so-named IoT & IoB products.
13. A fee schedule of NOK 1 000 000 per day for any so-named IoT & IoB products installed/operational at, in, on, or near the Claimant/Libellant's corporeal body, and body or bodies under their ownership of property, private dwelling, school, workplace, and or public area shall be due and payable from the Respondent/Libellee to the Claimant/Libellant, or to another recipient or organization if specified in writing by the Claimant/Libellant.
14. Aiding and abetting the implementation of the so named IoT & IoB products in part or in whole **is an act of trespass, treason, fraud, and violation against the Nuernberg Code of Ethics for human medical and biomedical experimentation, and the Hippocratic Oath, or other, an oath of promise to do no harm.**
15. There is no evidence to support a 'SARS-CoV2' medical emergency. Prevention and treatments for influenza like symptoms and illness should have been made available to all patients. To keep these treatments from sick people is causing unnecessary harm. When effective preventions and treatments are made available, there is no necessity for lockdown measures worldwide, such as wearing of masks, quarantining, mRNA gene therapy/vaccines etc
16. Most, if not all, of the mRNA gene therapies/vaccines are in clinical trials. They are experimental. There is evidence that there has been significant adverse events and death around the world and we fear the long term adverse repercussions may cause significant harms, injuries and loss.
17. Infringement of our inalienable rights and freedoms by so-called 'pandemic' laws are unnecessary, unfounded, unconstitutional, undemocratic, unlawful, illegal, criminal, and may incur liabilities on the enforcer and promoters for harm, loss and/or injury caused and must cease immediately. Civil actions may proceed immediately for damages caused by forced and/or coerced injections/vaccinations. Infringement of our inalienable rights and freedom, such as the wearing of masks, social distancing, travel and work restrictions, injections/vaccinations, microchipping, quarantining, remaining indoors, are unlawful.
18. Direct and indirect Censorship regarding SARS-CoV2 and related issues, whether under the guise of "fact checking", untrue or misleading media reporting, omissions, fabrications, outright lies and propaganda from governments, media, medical professionals, medical/drug companies and any other conspirators are to cease immediately or accept full liability and culpability for negligence, harm and injury caused to men and women.
19. If the acts are found to be unlawful and criminal, the crimes committed by individuals, corporations, governments, organizations, and men and women acting in whatever role or capacity regarding the above statements, are crimes against mankind. Failure to comply to this Declaration and Notice of Liability to immediately cease with all unlawful acts, criminal acts, crimes and offences against men and women by 31 May 2021 may result in criminal prosecution of all perpetrators, and/or civil action, relying upon each country's constitutions and criminal legislation as well as the Universal Declaration of Human Rights, including but not limited to, continuing the application of the SARS-CoV-2 vaccination program. Those offenders committing unlawful acts and crimes against the people will be brought to justice expeditiously.

20. We demand you to provide evidence of the following;

SARS-CoV-2 inoculations/"vaccines" has been thoroughly tested, to ensure safety to all recipients.

SARS-CoV-2 inoculations/"vaccines" protect from SARS-CoV2 infection.

SARS-CoV-2 inoculations/"vaccination" are not causing more harm than good, and are not causing significant adverse events, are not causing severe adverse events and are not causing death to recipients of the inoculations/"vaccines".

SARS-CoV-2 inoculations/"vaccinations" has not caused or led to thousands of deaths of recipients of the inoculation "vaccine" serum product .

Should you fail, refuse or neglect to do so within 14 days of the date of this Notice of Liability, it will be taken as your first fault.

21. In the absence and/or refusal of your reply and answers to the above paragraph 20 within the time stipulated, that your silence is validly taken as your assent, agreement and acknowledgement;

(a) Your contribution and participation, whether directly or indirectly, consciously or unconsciously, to the SARS-CoV2 program makes you complicit to having caused and causing harm, significant and serious adverse injuries/events and even deaths, loss and

(b) You are legally and lawfully liable and culpable for your own actions, as well as your actions in conjunction with others, regarding the SARS-CoV-2 inoculation/"vaccination" and lockdown programs, and

(c) We believe you are at risk of being liable if you do not take appropriate action to attempt, to abate or prevent harm, injuries and/or loss to men, women, children, new and expectant mothers and their babies or the people.

(d) All indemnities, warranties, legislation and protections afforded you in relation to damages and injuries caused the common people, recipient victims of the SARS-CoV-2 inoculations/"vaccines", are waived and voided, and you acknowledge your personal liability, culpability, vulnerability and accountability for every injured party of a SARS-CoV-2 inoculation/"vaccination".

Naturally, should you express to me in writing in timely manner, and certainly prior to 31 May 2021, that all SARS-CoV-2 inoculations/"vaccines" are withdrawn and all SARS-CoV-2 inoculations/"vaccination" programs are immediately terminated, that no future Sars-CoV-2 or other such sinister inoculation/"vaccination" programs will be entertained or created by any government, local, regional and national, of the country commonly known as "Norge", I will immediately withdraw from, terminate and not pursue, any litigation against you. The withdrawal of litigations also applies, if you, in the time frame given, choose to officially stand behind this appeal.

Dated this 17 day of May in the Year Two Thousand Twenty-One.

A1. Urgent Open Letter from Doctors and Scientists to the European Medicines Agency Regarding COVID-19 Vaccine Safety Concerns

Emer Cooke
Executive Director
European Medicines Agency
Amsterdam
The Netherlands

28 February 2021

Dear Sirs/Mesdames,

**FOR THE URGENT PERSONAL ATTENTION OF:
EMER COOKE
EXECUTIVE DIRECTOR OF THE EUROPEAN MEDICINES AGENCY**

BY EMAIL ONLY

As physicians and scientists, we are supportive in principle of the use of new medical interventions which are appropriately developed and deployed, having obtained informed consent from the patient. This stance encompasses vaccines in the same way as therapeutics.

We note that a wide range of side effects is being reported following vaccination of previously healthy younger individuals with the gene-based COVID-19 vaccines. Moreover, there have been numerous media reports from around the world of care homes being struck by COVID-19 within days of

vaccination of residents. While we recognise that these occurrences might, every one of them, have been unfortunate coincidences, we are concerned that there has been and there continues to be inadequate scrutiny of the possible causes of illness or death under these circumstances, and especially so in the absence of post-mortems examinations.

In particular, we question whether cardinal issues regarding the safety of the vaccines were adequately addressed prior to their approval by the European Medicines Agency (EMA).

As a matter of great urgency, we herewith request that the EMA provide us with responses to the following issues:

1. Following intramuscular injection, it must be expected that the gene-based vaccines will reach the bloodstream and disseminate throughout the body [1]. We request evidence that this possibility was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.
2. If such evidence is not available, it must be expected that the vaccines will remain entrapped in the circulation and be taken up by endothelial cells. There is reason to assume that this will happen particularly at sites of slow blood flow, i.e. in small vessels and capillaries [2]. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.
3. If such evidence is not available, it must be expected that during expression of the vaccines' nucleic acids, peptides derived from the spike protein will be presented via the MHC I - pathway at the luminal surface of the cells. Many healthy individuals have CD8-lymphocytes that recognize such peptides, which may be due to prior COVID infection, but also to cross-reactions with other types of Coronavirus [3; 4] [5]. We must assume that these lymphocytes will mount an attack on the respective cells. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.
4. If such evidence is not available, it must be expected that endothelial damage with subsequent triggering of blood coagulation via platelet activation will ensue at countless sites throughout the body. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.
5. If such evidence is not available, it must be expected that this will lead to a drop in platelet counts, appearance of D-dimers in the blood, and to myriad ischaemic lesions throughout the body including in the brain, spinal cord and heart. Bleeding disorders might occur in the wake of this novel type of DIC-syndrome including, amongst other possibilities, profuse bleedings and haemorrhagic stroke. We request evidence that all these possibilities were excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.
6. The SARS-CoV-2 spike protein binds to the ACE2 receptor on platelets, which results in their activation [6]. Thrombocytopenia has been reported in severe cases of SARS-CoV-2 infection [7]. Thrombocytopenia has also been reported in vaccinated individuals [8]. We request evidence that the potential danger of platelet activation that would also lead to disseminated intravascular coagulation (DIC) was excluded with all three vaccines prior to their approval for use in humans by the EMA.

7. The sweeping across the globe of SARS-CoV-2 created a pandemic of illness associated with many deaths. However, by the time of consideration for approval of the vaccines, the health systems of most countries were no longer under imminent threat of being overwhelmed because a growing proportion of the world had already been infected and the worst of the pandemic had already abated. Consequently, we demand conclusive evidence that an actual emergency existed at the time of the EMA granting Conditional Marketing Authorisation to the manufacturers of all three vaccines, to justify their approval for use in humans by the EMA, purportedly because of such an emergency.

Should all such evidence not be available, we demand that approval for use of the gene-based vaccines be withdrawn until all the above issues have been properly addressed by the exercise of due diligence by the EMA.

There are serious concerns, including but not confined to those outlined above, that the approval of the COVID-19 vaccines by the EMA was premature and reckless, and that the administration of the vaccines constituted and still does constitute “human experimentation”, which was and still is in violation of the Nuremberg Code.

In view of the urgency of the situation, we request that you reply to this email within seven days and address all our concerns substantively. Should you choose not to comply with this reasonable request, we will make this letter public.

This email is copied to:

Charles Michel, President of the Council of Europe

Ursula von der Leyen, President of the European Commission.

A2. Reply from the European Medicines Agency to Doctors for Covid Ethics

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

Dr C. Stephen Frost
Specialist in Diagnostic Radiology
Stockholm
Sweden

23 March 2021
EMA/140520/2021
Stakeholders and Communication Division

Dear Dr Frost,

Many thanks for your letter dated 28 February 2021 regarding the COVID-19 vaccines.

Please allow us to address your questions point by point:

1. **Following intramuscular injection, it must be expected that the gene-based vaccines will reach the bloodstream and disseminate throughout the body [1]. We request evidence that this possibility was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.**

The uptake of the mRNA in the vaccine occurs mainly in macrophages and dendritic cells of the immune system at the site of injection and draining lymph nodes. In addition, the mRNA is detected in the plasma and other tissues for up to 9 days, and this has been studied for existing COVID-19 mRNA vaccines using animal models receiving much higher vaccine doses compared to doses used in humans in order to identify any potential safety issues. It was found that the vaccine's mRNA, formulated inside lipid nanoparticles, remains mainly at the injection site and only small amounts can reach other tissues, such as the liver.

Regarding the COVID-19 AstraZeneca vaccine, upon administration of the same vector carrying another virus protein, it was found that most of the injected viral vector remained at the injection site, and only low amounts were detected in other tissues.

The non-clinical studies performed with the 3 COVID-19 vaccines did not identify any safety concerns linked to their tissue distribution in the animal model under the experimental conditions used.

2. **If such evidence is not available, it must be expected that the vaccines will remain entrapped in the circulation and be taken up by endothelial cells. There is reason to assume that this will happen particularly at sites of slow blood flow, i.e. in small vessels and capillaries [2]. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.**

The cited reference relates to an in vitro system used to investigate the interplay between gold nanoparticles and flow rate versus uptake by endothelial cells also facilitated by specific ligands. This is a hypothesis-generating study for improving novel nanoparticles technologies for medical applications and is not considered relevant to the vaccines in question. Non-clinical studies with COVID-19 mRNA vaccines do not indicate any detectable uptake of lipid nanoparticles by endothelial cells. Similarly, there is no evidence that the AstraZeneca vaccine vector is able to enter endothelial cells in vivo. It is known that the receptor for this vector is not expressed or expressed at very low level in endothelial cells.

Regarding Comirnaty, except for minor transient decrease in lymphocyte count for some of the subjects, no abnormal laboratory results were reported from the Phase 1 studies.

The clinical laboratory results for the AstraZeneca vaccine were within normal clinical range and did not raise any safety concerns.

Although no safety signal linked to coagulation disorders was seen in the large clinical trials, which included several thousands of individuals, more data were provided during the enhanced safety monitoring that is in place for all COVID-19 vaccines.

It is in this context that cases of thrombocytopenia were reported which led to an investigation for Comirnaty, Moderna and Astra Zeneca COVID-19 vaccines which is currently ongoing. For further information please see here:

<https://www.ema.europa.eu/en/news/meeting-highlights-pharmacovigilance-risk-assessment-committee-prac-8-11-march-2021>

The continuous safety monitoring also found reports of a combination of thrombocytopenia and thromboembolism with the COVID-19 Vaccine AstraZeneca which led to an urgent investigation which concluded on 18 March. EMA's safety committee, PRAC, concluded that the vaccine may be associated with very rare cases thromboembolism associated with thrombocytopenia, including cerebral venous sinus thrombosis. There were 18 reports of CVST and 7 reports of disseminated intravascular coagulation, out of around 20 million people vaccinated with the vaccine as of March 16.

A causal link with the vaccine is not proven but deserves further analysis. Overall, the benefits of the vaccine in combating the still widespread threat of COVID-19 (which itself results in clotting problems and may be fatal) continue to outweigh the risk of side effects.

For further information please refer to the press release: [COVID-19 Vaccine AstraZeneca: benefits still outweigh the risks despite possible link to rare blood clots with low blood platelets | European Medicines Agency \(europa.eu\)](#)

See also responses to question 6.

- 5. If such evidence is not available, it must be expected that this will lead to a drop in platelet counts, appearance of D-dimers in the blood, and to myriad ischaemic lesions throughout the body including in the brain, spinal cord and heart. Bleeding disorders might occur in the wake of this novel type of DIC-syndrome including, amongst other possibilities, profuse bleedings and haemorrhagic stroke. We request evidence that all these possibilities were excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.**

None of the mentioned unwanted effects have been detected in non-clinical or clinical studies. See also responses to questions 4 and 6.

- 6. The SARS-CoV-2 spike protein binds to the ACE2 receptor on platelets, which results in their activation [6]. Thrombocytopenia has been reported in severe cases of SARS-CoV-2 infection [7]. Thrombocytopenia has also been reported in vaccinated individuals [8]. We request evidence that the potential danger of platelet activation that would also lead to disseminated intravascular coagulation (DIC) was excluded with all three vaccines prior to their approval for use in humans by the EMA.**

No evidence of thrombocytopenia or coagulation disorders was detected in clinical trials for any of the COVID-19 vaccines so far authorised.

Cases of thrombocytopenia and thromboembolic events have recently been reported for the 3 vaccines from real-life use. The PRAC is currently investigating cases thrombocytopenia reported with the three vaccines and more information will be shared once the assessment is concluded.

<https://www.ema.europa.eu/en/news/covid-19-vaccine-astrazeneca-prac-investigating-cases-thromboembolic-events-vaccines-benefits>

For the cases of thromboembolic events please refer to question 4 and to EMA's press release:

[COVID-19 Vaccine AstraZeneca: benefits still outweigh the risks despite possible link to rare blood clots with low blood platelets | European Medicines Agency \(europa.eu\)](#)

See also response to question 4.

After authorisation these vaccines are closely monitored like all medicines so that prompt regulatory action can be taken in the event of any identified safety issue. Such safety monitoring takes place more frequently and includes activities that apply specifically to COVID-19 vaccines. Companies for example provide monthly safety reports in addition to the regular updates required by the legislation and conduct studies to monitor the safety and effectiveness of COVID-19 vaccines after their authorisation as requested by the Regulatory Authorities.

For further information we invite you to refer to EMA's detailed assessment report as well as the risk assessment for the individual vaccines:

- **for COVID-19 Vaccine Moderna**

Risk management plan:

https://www.ema.europa.eu/en/documents/rmp-summary/covid-19-vaccine-moderna-epar-risk-management-plan_en.pdf

Assessment report:

https://www.ema.europa.eu/en/documents/assessment-report/covid-19-vaccine-moderna-epar-public-assessment-report_en.pdf

- **for COVID-19 Astra Zeneca**

https://www.ema.europa.eu/en/documents/rmp-summary/covid-19-vaccine-astrazeneca-epar-risk-management-plan_en.pdf

Assessment report:

https://www.ema.europa.eu/en/documents/assessment-report/covid-19-vaccine-astrazeneca-epar-public-assessment-report_en.pdf

- 7. The sweeping across the globe of SARS-CoV-2 created a pandemic of illness associated with many deaths. However, by the time of consideration for approval of the vaccines, the health systems of most countries were no longer under imminent threat of being overwhelmed because a growing proportion of the world had already been infected and the worst of the pandemic had already abated. Consequently, we demand conclusive evidence that an actual emergency existed at the time of the EMA granting Conditional Marketing Authorisation to the manufacturers of all three vaccines, to justify their approval for use in humans by the EMA, purportedly because of such an emergency.**

In the EU, COVID-19 vaccines received a conditional marketing authorisation (CMA). CMAs are foreseen in the EU legislation specifically for public health emergencies. The WHO declared on March 11 2020 a pandemic, which is ongoing at the moment and continues to represent a serious threat to individuals' health and to health care systems globally, which is contained only by non-pharmaceutical measures such as extensive lockdown to prevent virus transmission as much as

possible. Of note, even though there is evidence of increased immunity in the population to SARS-CoV-2 (up to 10% in certain countries), this may not prevent reinfection.

In addition, high numbers of hospitalisation and death from COVID-19 continue to be reported and novel virus variants are emerging and slowly taking over, some of which are showing worrying features of enhanced transmissibility and potentially morbidity/mortality.

In this context, CMA is the most appropriate regulatory mechanism for use among the portfolio of emergency tools that the EMA has available.

Please note that a conditional marketing authorisation is not exclusively reserved for public health emergencies. They are also granted to medicines for orphan diseases or for seriously debilitating or life-threatening diseases on the basis of less comprehensive clinical data than normally required, where the benefit of immediate availability of the medicine outweighs the risk inherent in the fact that additional data are still required.

We hope that the above reassures you that the COVID-19 vaccines have been evaluated following the same stringent scientific requirements for quality, safety and efficacy as for all other vaccines. Authorisation has been made after a positive benefit-risk balance has been established on all available data. In addition, we would like to reiterate that enhanced and stringent safety monitoring is in place for all COVID-19 vaccines, to ensure that the benefits always outweigh the risks.

Kind regards,

Juan Garcia Burgos

Head of Public and Stakeholders Engagement Department

A3 Doctors and Scientists accuses medical regulator of downplaying COVID-19 Vaccine Danger

PRESS RELEASE - FOR IMMEDIATE RELEASE

Doctors and Scientists Accuse Medical Regulator of Downplaying COVID-19 Vaccine Dangers

The European Medicines Agency is misleading citizens into medical experimentation, experts warn

April 1st 2021

Doctors and scientists from 25 countries have today issued a [rebuttal letter](#) to the European Medicines Agency (EMA), following the regulator's dismissal of their earlier warnings regarding COVID-19 vaccine dangers from clotting and bleeding. Within days of the EMA receiving the group's [original letter](#) on March 1st, outlining risks of blood disorders from COVID-19 vaccines, over a dozen countries suspended

the AstraZeneca vaccine following deaths from clotting and bleeding, as the doctors had warned.

On March 23rd, however, the EMA [dismissed](#) the group's concerns as relating to "minor" and "rare" events, concluding that "a positive benefit-risk balance has been established."

The doctors and scientists have today hit back, accusing the EMA of misleading the public on the vaccines' true risk-benefit profile. "Your reply of March 23 is unconvincing and unacceptable," they wrote, noting that recorded cases of life-threatening cerebral venous thrombosis (CSVT) post-vaccination likely "represent just the tip of a huge iceberg". Common reactions to vaccination, including headache, nausea, blurred vision and vomiting, they state, are symptoms of CSVT, and should be assessed as such, immediately.

Clotting and bleeding after vaccination can also "be expected to increase with each re-vaccination, and each intervening coronavirus exposure" the group warned. Over time "this renders both repeated vaccination and common coronaviruses dangerous to young and healthy age groups, for whom - in the absence of 'vaccination' - COVID-19 poses no substantive risk.

"Such is the real risk-benefit analysis of the COVID-19 'vaccines'. Either the EMA lacks the subject-matter expertise to appreciate the molecular science of this reality, or it lacks the medical ethics to act accordingly."

The group, Doctors for Covid Ethics, which includes professors of immunology and microbiology, described the EMA's responses to their concerns as "unscientific", "vague", and lacking credibility. They have offered to liaise with the agency to mitigate against vaccination risks and ethics violations, including helping the EMA to "craft a focussed pharmacovigilance plan."

The group warned that continuing to administer inadequately tested gene-based COVID-19 vaccines represents dangerous medical experimentation, whose "true risks far outweigh any theoretical benefits", reflecting "serious violations of medical ethics and citizens' medical rights."

"Misleading populations into accepting investigational agents such as the gene-based COVID-19 'vaccines', or coercing them through 'vaccine passports', constitutes clear and egregious violations of the Nuremberg Code", they caution. The letter is addressed to Emer Cooke, Executive Director of the EMA, and was copied to the lawyer Reiner Fuellmich, Charles Michel, President of the Council of Europe, and Ursula von der Leyen, President of the European Commission.

4. Rebuttal Letter to European Medicines Agency from Doctors for Covid Ethics

From Doctors for Covid Ethics
Emer Cooke
Executive Director
European Medicines Agency
Amsterdam
The Netherlands

April 1st 2021

Ladies and Gentlemen,

FOR THE URGENT PERSONAL ATTENTION OF: EMER COOKE, EXECUTIVE DIRECTOR OF THE EUROPEAN MEDICINES AGENCY

We acknowledge receipt of your March 23 reply to our letter dated February 28, seeking reassurance that foreseeable risks of gene-based COVID-19 “vaccines” had been ruled out in animal trials prior to human use. Our concerns arise from multiple lines of evidence, including that the SARS-CoV-2 “spike protein” is not a passive docking protein, but its production is likely to initiate blood coagulation via multiple mechanisms.

Regrettably, your reply of March 23 is unconvincing and unacceptable. We are dismayed that you choose to respond to our request for crucially important information in a dismissive and unscientific manner. Such a cavalier approach to vaccine safety creates the unwelcome impression that the EMA is serving the interests of the very pharmaceutical companies whose products it is your pledged duty to evaluate. The

evidence is clear that there are some serious adverse event risks & that **a number of people, not at risk from SARS-CoV-2, have died following vaccination.**

1. You concede that the “vaccines”, which are more accurately described as investigational gene-based agents, enter the bloodstream but you can obviously provide no quantitative data. In the absence of the latter, any scientific assessment you purport to have undertaken lacks foundation.
2. Your statement that non-clinical studies do not indicate any detectable uptake of the vaccines into endothelial cells lacks credibility. We demand to see the scientific evidence. If not available, it must be assumed that endothelial cells are targeted.
3. Auto-attack could not have been excluded in animals unless they had been immunologically primed beforehand. We demand evidence that such experiments had been performed. Similar experiments have been undertaken before with previous, unsuccessful candidate vaccines, and fatal, antibody-dependent enhancement of disease was observed.
4. We requested scientific evidence, not a vague description of what was purportedly seen in non-valid animal experiments. Your cursory mention of laboratory findings in humans is cynical. In view of the plausible connection between production of spike protein and the emergence of thromboembolic serious adverse events (SAEs), we demand to see the results of D-dimer determinations. As you are aware, D-dimer is a very good test as an aid to diagnose thrombosis.

After delivery of our letter to you on March 1, events followed that debunk your response to our last three queries to an extent that can only be termed embarrassing. As we feared, severe and fatal coagulopathies occurred in young individuals following “vaccination”, leading 15 countries to suspend their AZ-“vaccination” program. An official investigation by the EMA into the cases of afflicted younger individuals followed, the results of which were announced by the WHO on March 17, 2021, stating: “At this time, WHO considers that the benefits of the AstraZeneca vaccine outweigh its risks and recommends that vaccinations continue.”

What was this decision based upon? The WHO is not a competent body for formally evaluating drug safety. That is explicitly the role of the agency you lead.

In your press release, you disclosed the following information to support your conclusion. You had scrutinized data on two mortally dangerous conditions that had followed within 14 days of “vaccination”: DIC, disseminated intravascular coagulation; and CSVT, cerebral sinus vein thrombosis. 5 DIC and 18 CSVT were on record, with a total death toll of 9. Most cases were <55 year-old individuals. 5 DIC and 12 CSVT were under 50 years of age. None were reported as having had serious pre-existing illness. You stated numbers that “normally” would be expected : DIC <1, CSVT 1.3.

Consequently, for these very rare conditions, a link to vaccination could not entirely be dismissed. However, given that 20 million individuals had been “vaccinated”, the benefits were deemed to far outweigh the risks.

But in fact, your Press Release rendered it glaringly apparent that the AZ-“vaccine” does have the potential to trigger intravascular coagulation, that the true risks far outweigh any theoretical benefits, and that any authority with the slightest sense of responsibility must suspend its further use.

1. Regard your incidence numbers for <50 year old individuals in the “vaccinated” versus “normal” population:
CSV T : 12 versus 1.3.
A 9-fold increase is beyond the range of coincidence.

DIC : 5 versus <1.

As we hope you know, DIC *never* occurs out of the blue in healthy individuals. The incidence should not be stated as <1 when in reality it is ZERO.

ACCORDINGLY, THE DIC CASES REPRESENT *CONCLUSIVE* EVIDENCE THAT THE AZ-VACCINE *ALONE* CAN TRIGGER INTRAVASCULAR COAGULATION .

2. Assume that 10 million recipients of the “vaccine” were < 60 yrs and this was followed by 9 deaths due to DIC and SVCT. The death toll upon 60 million “vaccinations” would be extrapolatable to 54.

The pandemic hit around 60 million individuals < 60 yrs in Germany.

During the first 6 months it reportedly claimed 52 lives of individuals without pre-existing illness.

(https://www.rki.de/DE/Content/Gesundheitsmonitoring/JoHM/2020/JoHM_Inhalt_20_S11.html)

Because of the unreliability of PCR testing and because of the completely novel way that deaths ‘with covid19’ are determined, the value of 52 is an over-estimate of the real burden of disease, further weakening your already-inadequate claim for risk-benefit.

How, then, can you declare that the benefits of vaccination far outweigh the risks?

We demand your reply supported by facts and figures that we will convey to the public.

3. Further considerations expose the truly frightful dimensions of your irresponsible assertion.

CSVT, cerebral venous thrombosis, is **always** a life-threatening condition that demands immediate medical attention. The number of cases you conceded had occurred can represent just the tip of a huge iceberg. As you must know, the most common symptoms of CSVT are piercing headache, blurred vision, nausea and vomiting. In severe cases, stroke-like symptoms occur including impairment of speech, vision and hearing, body numbness, weakness , decreased alertness and loss of motoric control.

Surely, you are not oblivious to the fact that countless individuals suffered from precisely such symptoms directly following “vaccinations” with **all** the experimental gene-based agents.

Clot formation in deep leg veins can lead to lethal pulmonary embolisms. Surely you must know that peripheral venous thromboses have repeatedly been reported following “vaccinations” with **all** the experimental gene-based agents

Microthromboses in the lung vasculature can lead to misdiagnosis of pneumonia. In combination with false-positive PCR (with high cycle thresholds), these will then be registered as COVID 19 cases. Surely you must know that this scenario has probably repeatedly taken place following “vaccinations” with **all** the experimental gene- based agents.

In all events, extensive thrombi formation can lead to consumption of platelets and coagulation factors, resulting in hemorrhagic diathesis and bleeding at all possible locations. Surely you must

know that profuse skin bleedings have repeatedly been observed following “vaccinations” with **all** the experimental gene-based agents.

Given that there is a mechanistically plausible explanation for these thromboembolic adverse drug reactions (TE ADRs), namely that the gene-based products induce human cells to manufacture potentially pro-thrombotic spike protein, the reasoned & responsible assumption must now be that this may be a class effect. In other words, the dangers must be ruled out for all emergency-authorized gene-based vaccines, not merely the AZ product.

We urge you to adopt this stance unless and until there is data providing high clinical confidence to the contrary. We are very willing to liaise with the Agency in order to help craft a focussed pharmacovigilance plan to accomplish this goal. With the above in mind, we hope you are aware that all thrombotic events can be rapidly diagnosed by measurement of D-Dimers in blood. And that good medical practice imperatively demands that attempts are undertaken to diagnose CSVT in any and every patient, young or old, presenting with the typical signs and symptoms following “vaccination”.

Given the potential for adverse effects, potentially fatal ones, it is completely inappropriate and unacceptable that EMA permits these products, which hold only emergency use authorisations, to be administered to younger (<60y) people who are healthy, as they are at unmeasurable risks from SARS-CoV-2.

Not to make this explicit is, in our view, a reckless stance to have taken in the first place and doubly so now.

Of equal importance, you are bound by duty to investigate whether reasons exist for the waves of deaths that have occurred following “vaccination” of elderly residents in care and senior homes. Or are you asserting that dangers of “vaccine”-derived thrombotic events are limited to younger individuals? If not, restricting their use solely in one age group – as decided upon in Germany – equates with nothing less than monstrous, condoned genocide of the other.

In closing, failure to inform “vaccine” recipients of the risks and negligible benefits outlined here represents serious violations of medical ethics and citizens’ medical rights. Those violations are especially grave as all the risks we describe can be expected to increase with each re-vaccination, and each intervening coronavirus exposure. This renders both repeated vaccination and common coronaviruses dangerous to young and healthy age groups, for whom - in the absence of “vaccination” - COVID-19 poses no substantive risk.

Such is the real risk-benefit analysis of the COVID-19 “vaccines”. Either the EMA lacks the subject-matter expertise to appreciate the molecular science of this reality, or it lacks the medical ethics to act accordingly.

At best, we regard the EMA’s complacent stance on vaccine dangers to be symptomatic of the fact that, under the prevailing politico-medical response to COVID-19, medical ethics has migrated from the consulting room to a geopolitical stage. Faced with a medical problem, mass-medical intervention has seen the practice of medicine taken from doctors’ hands. In this politicized context, corporate and political actors may consider themselves free from ethical constraints, operating unbound by a medical code of ethics, unlike medical doctors. All actors, however, are bound by the Nuremberg Code.

The Nuremberg Code prohibits human experimentation of the very kind being endorsed and defended by the EMA. Even under the terms of their own original FDA authorization, COVID-19 vaccines are deemed “investigational” and their recipients “human subjects”, who are, by definition, entitled to informed consent. <https://www.fda.gov/regulatory-information/search-fda-guidance-documents/emergency-use->

[investigational-drug-or-biologic#:~:text=Emergency%20use%20is%20defined%20as,21%20CFR%2056.102\(d\)%5D.](#)

Misleading populations into accepting investigational agents such as the gene-based COVID-19 “vaccines”, or coercing them through “vaccine passports”, constitutes clear and egregious violations of the Nuremberg Code. The Nuremberg Code mandates voluntary informed consent “without the intervention of any element of force, fraud, deceit [or] duress”.

<https://history.nih.gov/display/history/Nuremberg+Code>

In other words, citizens have the right under the Nuremberg Code and related protections not to be subject involuntarily to medical experiments. It is clear that **these experimental agents should be CONTRA-INDICATED in individuals not at elevated risk of serious illness & death if infected by SARS-CoV-2**. Furthermore, the use of the experimental agents must also be withheld in the elderly population until a risk-benefit assessment has been properly conducted. In any event, the vaccine label must be revised to reflect the recently emerged serious adverse events addressed here.

We remind the EMA that Nuremberg violations constitute crimes against humanity under the Geneva Convention. Crimes against humanity are deemed “the worst atrocities known to mankind”, and are prosecuted under the Rome Statute of the International Criminal Court.

<https://www.un.org/en/chronicle/article/role-international-criminal-court-ending-impunity-and-establishing-rule-law>

Given the hundreds of millions and eventually billions of people who may be coerced into accepting these agents, the EMA, in persistently shrinking from open debate and the truth, will be seen by lawyers and historians as having actively assisted in crimes against humanity, with the full weight of the implications to all involved. We demand that you engage openly with us to ensure that the public have an objective understanding of the clinical risk profile of these gene-based interventions.

You understand that coercive pressure is being placed on citizens to receive COVID-19 vaccines, which are experimental medical treatments. Your responsibility to those citizens includes ensuring that they are informed of the adverse event risks of every such treatment. To date you have failed to do so, and have instead misled the public on the reality of the “vaccines” risk-benefit profile.

If you continue to conceal the truth, efforts will be made to bring this to light and to see that justice is done. For the sake of the injured and the dead, and to protect further lives from similar fates.

NOTICE

For the avoidance of doubt, if your regulatory body does not immediately suspend its “emergency” recommendation of potentially dangerous inadequately tested gene-based “vaccines”, while the matters which we have highlighted to you are properly investigated, we hereby put the European Medicines Agency on notice of being complicit in medical experimentation, in violation of the Nuremberg Code, which thereby constitutes the commission of crimes against humanity.

Furthermore, it is your indirigible duty as a regulatory body to ensure that all doctors worldwide are advised that they are taking part in medical experimentation via “vaccination” programmes, whether wittingly or unwittingly, with all the legal and ethical obligations that such involvement entails.

This email is copied to the lawyer Reiner Fuellmich. It is also copied to Charles Michel, President of the Council of Europe, and to Ursula von der Leyen, President of the European Commission.

Yours faithfully,

Doctors for Covid Ethics

Over 100 doctors and scientists from 25 countries <https://doctors4covidethics.medium.com/urgent-open-letter-from-doctors-and-scientists-to-the-european-medicines-agency-regarding-covid-19-f6e17c311595>

A5 Doctors for Covid Ethics Signatories

Doctors for Covid Ethics has written two open letters to the European Medicines Agency regarding COVID-19 vaccine dangers. In those letters we have insisted upon evidence that risks of clotting, bleeding and platelet abnormalities were appropriately ruled out in legitimate empirical trials prior to human use.

Signatories across the two letters are as follows:

Founding signatories

Professor Sucharit Bhakdi MD, Professor Emeritus of Medical Microbiology and Immunology, Former Chair, Institute of Medical Microbiology and Hygiene, Johannes Gutenberg University of Mainz (Medical Doctor and Scientist) (Germany and Thailand)

Dr Marco Chiesa MD FRCPsych, Consultant Psychiatrist and Visiting Professor, University College London (Medical Doctor) (United Kingdom and Italy)

Dr C Stephen Frost BSc MBChB, Specialist in Diagnostic Radiology, Stockholm, Sweden (Medical Doctor) (United Kingdom and Sweden)

Dr Margareta Griesz-Brisson MD PhD, Consultant Neurologist and Neurophysiologist (studied Medicine in Freiburg, Germany, speciality training for Neurology at New York University, Fellowship in Neurophysiology at Mount Sinai Medical Centre, New York City; PhD in Pharmacology with special interest in chronic low level neurotoxicology and effects of environmental factors on brain health), Medical Director, The London Neurology and Pain Clinic (Medical Doctor and Scientist) (Germany and United Kingdom)

Professor Martin Haditsch MD PhD, Specialist (Austria) in Hygiene and Microbiology, Specialist (Germany) in Microbiology, Virology, Epidemiology/Infectious Diseases, Specialist (Austria) in Infectious Diseases and Tropical Medicine, Medical Director, TravelMedCenter, Leonding, Austria, Medical Director, Labor Hannover MVZ GmbH (Medical Doctor and Scientist) (Austria and Germany)

Professor Stefan Hockertz, Professor of Toxicology and Pharmacology, European registered Toxicologist, Specialist in Immunology and Immunotoxicology, CEO tpi consult GmbH. (Scientist) (Germany)

Dr Lissa Johnson, BSc BA(Media) MPsych(Clin) PhD, Clinical Psychologist and Behavioural Scientist, Expertise in the social psychology of atrocity, torture, collective violence and propaganda, former professional body Public Interest Advisory Group member (Psychologist) (Australia)

Professor Ulrike Kämmerer PhD, Associate Professor of Experimental Reproductive Immunology and Tumor Biology at the Department of Obstetrics and Gynaecology,

University Hospital of Würzburg, Germany, Trained molecular virologist (Diploma, PhD- Thesis) and Immunologist (Habilitation), Remains engaged in active laboratory research (Molecular Biology, Cell Biology) (Scientist) (Germany)

Associate Professor Michael Palmer MD, Department of Chemistry (studied Medicine and Medical Microbiology in Germany, has taught Biochemistry since 2001 in present university in Canada); focus on Pharmacology, metabolism, biological membranes, computer programming; experimental research focus on bacterial toxins and antibiotics (Daptomycin); has written a textbook on Biochemical Pharmacology, University of Waterloo, Ontario, Canada (Medical Doctor and Scientist) (Canada and Germany)

Professor Karina Reiss PhD, Professor of Biochemistry, Christian Albrecht University of Kiel, Expertise in Cell Biology, Biochemistry (Scientist) (Germany)

Professor Andreas Sönnichsen MD, Professor of General Practice and Family Medicine, Department of General Practice and Family Medicine, Center of Public Health, Medical University of Vienna, Vienna (Medical Doctor) (Austria)

Dr Wolfgang Wodarg, Specialist in Pulmonary and Bronchial Internal Medicine, Hygiene and Environmental Medicine, Epidemiology, and Public Health; Honorary Member of the Parliamentary Assembly of the Council of Europe and former Head of the Health Committee of the Parliamentary Assembly of the Council of Europe; former Member of Parliament, German Bundestag; Initiator and Spokesman for the study commission 'Ethics and Law in Modern Medicine'; Author and University Lecturer (Medical Doctor) (Germany)

Dr Michael Yeadon BSc (Joint Honours in Biochemistry and Toxicology) PhD (Pharmacology), Formerly Vice President & Chief Scientific Officer Allergy & Respiratory, Pfizer Global R&D; Co-founder & CEO, Ziarco Pharma Ltd.; Independent Consultant (Scientist) (United Kingdom)

Endorsing signatories

Dr Reem Abu-Sbaih, DO, Doctor of Osteopathy, Associate Professor Osteopathic Manipulative Medicine/ Neuromusculoskeletal Medicine (Medical Doctor) (USA)

Dr Adriana Reyes Agudelo, MD, Surgeon (Medical Doctor) (Spain) Dr Véronique Ahari, General Practitioner (Medical Doctor) (France)

Dr Maria José Martínez Albarracín, Bachelor of Medicine and Surgery, Physician and Professor of Clinical Diagnostic Processes, Specialized in Clinical Analysis (Medical Doctor) (Spain)

Dr Alicja Alda, General Practitioner and Ear Nose and Throat specialist (Medical Doctor) (Norway)

Dr Fernando Ania, ND, Naturopathic Doctor (Canada)

Dr Carmen Soler Arnedo, Surgeon, General Medicine (Medical Doctor) (Spain)

Dr Mario Cabrera Avivar, MD, Specialist in Public Health, former Consultant to the Pan American Health Organisation, the World Health Organisation Regional Office for the Americas (OPS/OMS) (Medical Doctor) (Uruguay)

Rena Bartoletti, Pharmacist, previously of the General Pharmacy Inspectorate, Registration Service Medicines, Federal Public Health and Safety Authority (Pharmacist) (Belgium)

Dr Gabriela Bachmann, General Medicine, Specialising in children and young people (Medical Doctor) (Austria)

Dr. Elizabeth Bastian, BSc (Genetics and Microbiology), MDCM, Family Medicine, General Practitioner in Oncology, sub specialty trained in Palliative Care (Medical Doctor) (Canada)

Dr Pedro López Bastido, Stomatologist (Medical Doctor) (Spain)

Dr Michael D Bell, MB, ChB (1978 Edinburgh) MRCP (1989), General Practitioner (Medical Doctor) (United Kingdom)

Rev. Reuben P. Bell, DO, MS, MDiv, PhD, Osteopathic family physician since 1982, Bachelors and Masters degrees in Zoology, formerly Professor of Biology (including Molecular Genetics and Developmental Biology), M.Div. and Ph.D. in theological studies, with attention to issues of science and religion (Medical Doctor and Scientist) (USA)

Dr Francisco Lacruz Bescos, MD, PhD, Consultant Neurologist with special training and dedication to Neuroimmunology and Multiple Sclerosis (Retired) (Medical Doctor) (Spain)

Dr Thomas Binder, MD, specialised in Cardiology and Internal Medicine, thesis in Immunology and Virology, with 32 years experience in diagnosis and treatment of Acute Respiratory Illness (Medical Doctor) (Switzerland)

Sarah Binns, MA VetMB, MS, MRCVS, MSc, PhD, DipLSHTM, Former Veterinary Infectious Disease Epidemiologist (United Kingdom)

Dr Rainer Bliefert, Dentist (Switzerland)

Dr Michael Brandner, Dr. Med. (Medical Doctor) (Germany)

Dr Rachel Brown, MBChB, LLM (Medical Law & Ethics), MRCPsych CFMP, Consultant Psychiatrist (Medical Doctor) (United Kingdom)

Dr Roxana Bruno, PhD in Immunology, Researcher in Biochemistry, Immunology, Neuroimmunology and Genetics (Scientist) (Argentina)

Dr Elizabeth Burton, MBChB, General Medical Practitioner (Retired)(Medical Doctor) (United Kingdom)

Dr Natalia Prego Cancelo, MD, Community and Family Medicine Specialist, founder of “Médicos por la Verdad” (Doctors for the Truth) worldwide, platform of doctors in more than 17 countries (Medical Doctor) (Spain)

Dr Ronald S. Carlson, AB Chem/Bio, DDS, Dentist (USA)

Dr Rafael Reinoso Casado, Family and Community Medicine (Medical Doctor) (Spain)

Dr Vernon Coleman, MB, ChB, General Practice Principal (Retired) (Medical Doctor) (United Kingdom)

Isabella Cooper, BSc (Hons) Biochemistry, AFHEA, AMRSB, AfENDO, Doctoral Researcher, Areas of expertise: hyperinsulinaemia, disseminated intravascular coagulability, mitochondrial molecular biology and cancer metabolism (Scientist) (United Kingdom)

Dr Johan Corthouts, General Practitioner (Medical Doctor) (Belgium)

Jonathan Jay Couey, Assistant Professor of Research, Pitt School of Medicine Research Faculty, Department of Neurobiology, examining cortical and subcortical microcircuits using promotor/enhancer driven gene expression (Scientist) (USA)

Dr David Critchley, BSc, PhD, Clinical Research Scientist with more than 30 years experience, including projects in Virology and Immunology (Scientist) (United Kingdom)

Professor Barbara A Crothers, DO, Associate Professor, Pathology, Gynecologic, Breast and Cytopathology (USA)

Dr Rita Darby, General Practitioner (Medical Doctor) (Wales)

Dr. Daniel de la Torre Llorente, Biology Professor, Biotechnology-Plant Biology Department, Agronomic, Food and Biosystems Engineering School (ETSIAB) Universidad Politécnica de Madrid (Scientist) (Spain)

Dr John Day, MD, Family Medicine (Board certified since 1990) (Medical Doctor) (USA) Dr Hilde De Smet, General Practitioner (Medical Doctor) (Belgium)

Dr Johan Denis, General Practitioner (Medical Doctor) (Belgium)

Dr Steven Depicker, General Practitioner (Medical Doctor) (Belgium)

Dr M. Doesburg-van Kleffens, MSc, PhD, Specialist in Laboratory Medicine (Clinical Chemistry), of Stichting Artsen Covid Collectief, an independent Dutch Collective of Medical Professionals (Scientist) (The Netherlands)

Dr Geanina Dragnea, Obstetrician-Gynecologist (Medical Doctor) (Romania)

Dr Nyjon Eccles, BSc, MBBS, MRCP, PhD, Specialist in Functional & Environmental Medicine (Medical Doctor) (United Kingdom)

Dr Karin Eisfeld, Molecular Biologist, Senior Regulatory Affairs Manager in the approval of new drugs and medical devices (Scientist) (Germany)

Dr Blanca Assumption Lario Elboj, Specialist in Ophthalmology (Medical Doctor) (Spain)

Dr Kjetil H. Elvevold, Senior Scientist, worked as Senior Scientist in a Contract Research Organization (CRO) in Norway that performed pre-clinical experiments for the pharmaceutical industry (Scientist) (Norway)

Dr Andreas Emmert, Specialist in Microbiology, Head Physician at Østfold Regional Hospital, Norway (Medical Doctor) (Norway)

Merit Enckell, Civ. Ing, PhD, Independent researcher, Structural Health Monitoring and Emerging Technologies, Formerly of KTH Royal Institute of Technology (Scientist) (Sweden)

Dr Sonia Andrés Espallardo, Psychiatrist (Medical Doctor) (Spain)

Dr Radimé Farhumand, Specialist in Anesthesia (Medical Doctor) (Germany)

Dr Thomas Faulkner, MChiro, DC, Managing Director and Chiropractor (United Kingdom)

Dr Susan Flett, Specialist in Psychiatry, Child Psychiatry and Psychotherapy (Semi- retired) (Medical Doctor) (United Kingdom)

Dr Konstantinos Fountzoulas, MD, PGDiP Orth Eng., FEBOT, FRCS (Tr & Orth), Consultant Trauma and Orthopaedic Surgeon (Medical Doctor) (England and Italy)

Dr Paul Christian Friedl, Ophthalmologist (Medical Doctor) (Austria)

Dr Carrie Ganek, MD, Adult Psychiatry (Medical Doctor) (USA)

Dr Martin E Ganek, MD, Board Certified Paediatrician (Medical Doctor) (USA)

Dr Emanuel E. Garcia, MD (University of Pennsylvania School of Medicine, 1986), Psychiatrist (Medical Doctor) (USA)

Dr Parisi Giovanni, Specialist in Ophthalmology and Sports Medicine (Medical Doctor) (Italy)

Dr Hartmut Glossmann, Professor Emeritus, Doctor of Medicine and Specialist in Pharmacology / Clinical Pharmacology, Institute for Biochemical Pharmacology, Innsbruck (Medical Doctor and Scientist) (Germany)

Amparo de Luque González, Dentist (Spain)

Dr Céline Guérin, PhD in Neurosciences, Master in Microbiology and Genetics (Scientist- Practitioner) (France)

Dr. Olga Petrovna Guzova, Pediatrician, Dermatologist and Dermatopathologist (Medical Doctor) (Panama)

Dr Hans-Michael Hackenberg, Family Doctor and Sports Medicine Specialist (Retired) (Medical Doctor) (Germany)

Dr Roman Häussler, General Medicine (Austria)

Dr Jutta Heinrich-Nols, Doctor and Clinical Pharmacologist (Medical Doctor and Scientist) (Germany)

Julie Henrotte, Quality System Expert, 12+ years in GSK Pharma (Scientist) (France)

Dr Angel Ruiz-Valdepeñas Herreros, Bachelor of Medicine, Licenciado en Medicina por la Universidad de Murcia, Specialist in Family and Community Medicine, co-founder of “Médicos por la Verdad” (Doctors for the Truth) worldwide, platform of doctors in more than 17 countries (Medical Doctor) (Spain)

Dr Birgit Hörger, Resident Doctor, Specialist in General Medicine (Medical Doctor) (Germany)

Dr April M. Hurley, MD, Family Physician for 35 years (Medical Doctor) (USA)

William Ip, BSc. MIBMS, Former NHS Biomedical Scientist (Specialist in Microbiology), for over 30 years (Scientist) (United Kingdom)

Dr Hervé Janecek, Veterinarian (France)

Jerzy Jaskowski, MD, PhD, MS, Specialties in General Surgery, Environmental Medicine, Physics and Biophysics (Retired)(Medical Doctor and Scientist) (Poland)

Dr. Elisabeth Jenik, General Medicine, Occupational Medicine and Psychosomatic Medicine (Medical Doctor) (Austria)

Dr Alain Joseph, General Medicine Specialist (Retired) (Medical Doctor) (France)

Dr Konstantinos Kakleas, MD, MRCPCH, MSc, PhD, Paediatric Allergy Consultant, Leicester Royal Infirmary Hospital (Medical Doctor) (United Kingdom)

Dr Hootan Kazemi, BDS Dental Surgeon, MSc(Distinc.) Clinical Biochemistry, BSc(Hons) Physiology (General Dental Practitioner) (United Kingdom)

Dr Ingrid Kiesel, Specialist in Psychiatry, Psychotherapy and General Medicine (Medical Doctor) (Germany)

Dr Alina Kislich, General Practitioner, Graduated from the Medical University of Vienna (Medical Doctor) (Austria)

Dr Wiltrud Kling, Specialist in General Medicine (Medical Doctor) (Germany)

Dr Ewa Konik, MD, Heart Transplant Cardiologist (Medical Doctor) (USA)

Dr Doris Krien, Assistant Doctor, Günzburg District Hospital (Medical Doctor) (Germany)

Brigitte Lacroix, clinical PKPD and PBPK modeler (Pharma industry), PhD in Pharmacy (Paris XI University), PhD in Pharmacometrics (Uppsala University) (Scientist) (France, Sweden)

Dr Andreas Lang, MD (Medical Doctor) (Germany)

Dr Paul Laursen, PhD, Adjunct Professor, AUT University (Scientist) (New Zealand and Canada)

Dr Michael S Lavender, Consultant Anaesthetist (Medical Doctor) (Australia)

Dr Tess Lawrie, MBBCh, PhD, Guideline methodologist and evidence synthesis expert, Director of The Evidence Based Medicine Consultancy Ltd, Bath UK. Honorary Researcher at the Royal United Hospital, Bath UK (Medical Doctor and Scientist) (United Kingdom)

Dr Bronia Lee, MBBCh, MRCP, Retired General Practitioner (Medical Doctor) (United Kingdom)

Dr Katrina Lewis, MD, BSc in Immunology and Physiological Chemistry, triple Board certified (USA) in Anesthesiology, Pain Medicine and Functional Medicine (Medical Doctor) (South Africa, USA)

Dr Derek Lohan, Consultant Radiologist and Director, Helix Radiology (Medical doctor) (Ireland)

Dr Ricardo Arriola López, General Medicine, (Medical Doctor) (Spain) Dr. Adele Lorigan, BSC (Chiro), Chiropractor (Australia)

Dr Antje Lueg, Specialist in Ophthalmology (Medical Doctor) (Germany)

Dr. Thomas Ly, MD, Infectologist and Paediatrician, Specialized in Tropical Medicine, Head of MedicalQM, a think tank on medical quality management and patient safety, Founder of the upcoming International Institute for Human Pathogenic Infectious Diseases “InfectCore” (Medical Doctor) (Germany and Thailand)

Dr Kulvinder S. Manik, MBChB, MA, LL.M., MRCP, GP (Medical Doctor) (England)

Dr. Rosemarie Mayr, Specialist in Psychiatry and Psychotherapeutic Medicine and Child and Adolescent Psychiatry, ÖÄK Diploma for Homeopathy (Retired) (Medical Doctor) (Germany)

Dr Nathi Mdladla, Associate Professor and Chief of ICU, Dr George Mukhari Academic Hospital and Sefako Makgatho University (Medical Doctor) (South Africa)

Dr Janet Menage, MA, MB, ChB, General Medical Practitioner (Retired) Qualified Psychological Counsellor (Medical Doctor) (United Kingdom)

Dr Niall McCrae, PhD, MSc, RMN, Mental health researcher, Psychiatric Nurse (United Kingdom)

Professor Nathalie McDonnell, MD, PhD (human genetics), Professor of Molecular and Cell Biology (Medical Doctor and Scientist) (France)

Dr Ciaran Montague, MVB, MRCVS, Royal College of Veterinary Surgeons certified veterinary dermatologist with 25 years general and referral practice (Veterinarian) (N. Ireland)

Dr Sabine de Monvallier, General Practitioner (Medical Doctor) (France) Dr Amir Mortasawi, Physician and author (Germany)

Dr Jens Münch, Neurologist, Psychoanalyst and Specialist in Psychosomatic Medicine and Trauma (Medical Doctor) (France)

Dr. Graeme Munro-Hall, BDS, Dentist (retired), pioneered the use of glutathione with vitamin C, awarded a Fellowship of the International Academy of Oral Medicine and Toxicology in 1996 (Dentist) (United Kingdom)

Dr Souha Nasreddine, MD, Ob/Gyn, Graduated from the Free University of Brussels Belgium, Holistic Gynecology (Lebanon)

Dr Terezia Novotna, General Practitioner, Emergency Doctor, and Anesthesiologist in Training (Medical Doctor) (Austria)

Akhmetzhanova Tamara Nikolaevna, Therapist and Cardiologist, the Republican Medical Genetic Center, Ufa (Medical Doctor) (Russia)

Ole C G Olesen, Double specialist in General Surgery, as well as Orthopedic Surgery and Trauma (Medical Doctor) (Denmark, Norway, Sweden and United Kingdom)

Dr Fatma Özgüler, Specialist in Internal Medicine, General Medicine and Emergency Medicine (Medical Doctor) (Germany)

Dr Waltraud Parta-Kehry, Biologist and Doctor for Gynaecology and Reproductive Medicine (Medical Doctor) (Germany)

Dr Arun Kumar Patel, MBBS, MPH, MRCPH, FFPH, Medical Public Health Specialist (Retired), NHS (Medical Doctor) (United Kingdom)

Dr E. Peeters, MD, Internal Medicine Specialist, Endocrinology, of Stichting Artsen Covid Collectief, an independent Dutch Collective of Medical Professionals (Medical Doctor) (The Netherlands)

Dr. Cristina Pinho, MD, Gastroenterologist (Medical Doctor) (Portugal)

Dr Hélène Potrich, General Practitioner (Medical Doctor) (France) Panagiotis Papaspyrou, Specialist in Orthopedics (Germany)

Dr Fabio Quirici, Swiss Medical Association (Medical Doctor) (Switzerland)

Professor Denis Rancourt, PhD, Researcher, Ontario Civil Liberties Association, Member scientist, PANDA (Pandemics Data & Analysis), Retired former Full Professor of Physics, University of Ottawa, with expertise in environmental nanoparticles, molecular science, molecular dynamics, statistical analysis methods and mathematical and epidemiological modelling (Scientist) (Canada)

Dr Rafael Reinoso, Family and Community Medicine (Medical Doctor) (Spain)

Dr Nicola Reiser, Anaesthetist and Intensive Care Physician, Senior Physician at the University Clinic UMEÅ (Medical Doctor) (Sweden)

Claudia Riempp, Psychologist and psychotherapist, expert in health education (Germany)

Dr Tred J Rissacher, DC, Chiropractor specialising in obesity and diabetes (USA)

Pablo Enrique Palomo Robles, Pharmaceutical Chemist, Ministry of Public Health and Social Assistance (Scientist) (Guatemala)

Rhys Rogers, BSc, Physiotherapy, 12 years experience as a frontline Physiotherapist (United Kingdom)

Dr Tamara Roycroft, BMBS, BSc (Hons) Nutrition, AIT RCGP, Doctor, Nutritionist and Former Research Scientist/Research Physician in the pharmaceutical industry, and Co- Investigator on vaccine trials (Medical Doctor and Scientist) (United Kingdom)

Professor Simon Ruijsenaars, Professor in Mathematical Physics, School of Mathematics, University of Leeds (Scientist) (United Kingdom)

Dr Sam Saidi, MB, ChB, BSc, FRCOG, PhD, University of Sydney (Medical Doctor and Scientist) (Australia)

Dr Claudia Schoene, Veterinarian with specialisation in Veterinary Epidemiology and Tropical Veterinary Medicine, Animal Health Management and Wildlife management, Formerly Scientific Researcher at the Institute for Epidemiology of the German Friedrich-Loeffler-Institut, Federal Research Institute for Animal Health, and the Information Centre for Biological Security of the Robert-Koch Institute (Veterinarian and Scientist) (Germany)

Dr Pamela Shervanick, DO, Medical doctor and Doctor of Osteopathic Medicine, with specialization in Psychiatry (Medical Doctor) (USA)

Dr Guido Spanoghe, Gastroenterologist (Medical Doctor) (Belgium)

Dr Paul Steven Spradbery, Forensic and Research Biologist, Foundation for Science and Technology, Lisbon, Intertek Life Sciences, London (Scientist) (United Kingdom)

Dr Duncan Syme, MBBS, FRACGP, Dip Prac Derm University of Cardiff, Graduate Monash University 1987, General Practitioner (Medical Doctor) (Australia)

Dr Carol Taccetta, MD, FCAP (Fellow of the College of American Pathologists), Pharmaceutical Physician for over 25 years, specializing in drug safety (Medical Doctor) (USA)

Dr Noel Thomas, MA, MB, ChB, DCH, DObsRCOG, DTM&H, MFHom. Semi retired NHS GP and homeopath (Medical Doctor) (United Kingdom)

Dr Corinne Tilloy, General Practitioner, (Medical Doctor) (France)
Dr Gilbert Tominez, General Practitioner (Retired) (Medical Doctor) (France)

Dr M. Tóth, MD, Psychiatrist, of Stichting Artsen Covid Collectief, an independent Dutch Collective of Medical Professionals (Medical Doctor) (The Netherlands)

Dr Julio Trindade, Masters in Epidemiology, Doctor of Veterinary Medicine, Masters in Strategy (Veterinarian & Epidemiologist) (Uruguay)

Dr Georgy Urushadze, Naturopathic Doctor, Paediatrician (Pirogov Russian National Medical University), Emergency Doctor, Physiotherapist, Researcher (Russia)

Dr Francisco J. Llull Vera, Dental Medicine Doctor, graduated from the Dental Medicine School (University of Puerto Rico, Puerto Rico), Postdoctoral Studies in Infectious Diseases (Harvard University, MA), Postdoctoral Studies in Dental Implantology and Oral Surgery (NYU Dental Medicine School, NY), Former President Puerto Rico College of Surgeons Dentists, South Region (Dentist) (Puerto Rico)

Dr H. Visser, MD, Internal Medicine Specialist and Infectologist, of Stichting Artsen Covid Collectief, an independent Dutch Collective of Medical Professionals (Medical Doctor) (The Netherlands)

Dr Jasmina Vucic-Peev, PhD, studied in Freiburg, Germany, training in Psychiatry in Switzerland (Medical Doctor) (Germany, Switzerland, Portugal)

Dr Jo Waller, UK State registered Biomedical Scientist since 1990 (Scientist) (United Kingdom)

Dr Maja Waibel, Dermatologist with specialty in Melanoma prevention (Medical Doctor) (Germany)

Dr Gerard A Waters, Mb, Bch, BAO, MICGP, General Practitioner (Medical Doctor) (Ireland)

Dr Markus Wegscheider, General Practitioner (Austria)

Dr Ronald Weigl, Gynecologist and General Practitioner (Medical Doctor) (Germany)

Dr Helen Westwood MBChB (Hons), MRCGP, DCH, DRCOG, GP (Medical Doctor) (United Kingdom)

Dr R Matison White, MD, Family Practice Physician of 49 years (Medical Doctor) (USA)

Dr Madhu Wickremaratchi, MBChB, MRCP, Acute and General Medicine (United Kingdom)

Dr Anna Maria Wiedemann, General Practitioner, Specialist in General Medicine (Medical Doctor) (Sweden and Germany)

Dr Clive Wilder-Smith, FRCP, AGAF, MD, Consultant Gastroenterologist, Director of Research (Medical Doctor) (Switzerland)

Thomas Robin Wilks, MA, BSc(Hons) FHEA, CPhys, MInstP, University Science Lecturer, Maths, Mathematical Modelling and Physics, Open University (Scientist) (United Kingdom)

Dr Christopher Wood, MBBS, Retired General Practitioner (Medical Doctor) (United Kingdom)

Dr Olga Sergeevna Yakimanskaya, General Practitioner, Polyclinic Physician (Medical doctor) (Russia)

Signatures of Colleagues in Allied Disciplines relating to Ethics, Health and Human Rights

Reece Francis Allawatt, Registered Nurse, Specialty in Psychiatry and Mental Health (USA)

Sue Cook, BSc (Hons) Lic LCCH, Neurodevelopment Specialist (United Kingdom)

Professor Peter Gichure, Associate Professor of Theology and Peace Studies, Catholic University of Eastern Africa, Director of Graduate Studies, with special interest in ethics (Kenya)

Shabnam Palesa Mohamed, Journalist, Activist and Mediator (South Africa)

John O’Sullivan, CEO of Principia Scientific International, an independent international scientific body defending the traditional scientific method, incorporated for charitable purposes as a Community Interest Company (United Kingdom)

Dr Violeta Sotirova, MPhil, PhD, Lecturer in English (United Kingdom)

Exhibit B

List of Members of the European Parliament Served with Notices of Liability for COVID-19 Vaccine Harms and Deaths

<https://doctors4covidethics.medium.com/members-of-the-european-parliament-served-with-notices-of-liability-for-covid-19-vaccine-harms-and-a1630dd77dfd>

On April 20, all following Members of the European Parliament were served with notices of liability, advising that they may be held personally liable for harm and death caused by implementation of a Digital Green Certificate (Vaccine Passport), to be voted upon in the European Parliament on April 28, 2021.

Magdalena ADAMOWICZ	Group of the European People's Party (Christian Democrats) Poland Independent

Exhibit C

A group of 57 leading scientists, doctors and policy experts has released a report calling in to question the safety and efficacy of the current COVID-19 vaccines and are now calling for an immediate end to all vaccine programs. We urge you to read and share this damning report.

<https://en-volve.com/2021/05/08/57-top-scientists-and-doctors-release-shocking-study-on-covid-vaccines-and-demand-immediate-stop-to-all-vaccinations/>

There are two certainties regarding the global distribution of Covid-19 vaccines. The first is that governments and the vast majority of the mainstream media are pushing with all their might to get these experimental drugs into as many people as possible. The second is that those who are willing to face the scorn that comes with asking serious questions about vaccines are critical players in our ongoing effort to spread the truth. You can read an advanced copy of this manuscript in preprint below. It has been prepared by nearly five dozen highly respected doctors, scientists, and public policy experts from across the globe to be urgently sent to world leaders as well as all who are associated with the production and distribution of the various Covid-19 vaccines in circulation today.

There are still far too many unanswered questions regarding the Covid-19 vaccines' safety, efficacy, and necessity. This study is a bombshell that should be heard by everyone, regardless of their views on vaccines. There aren't nearly enough citizens who are asking questions. Most people simply follow the orders of world governments, as if they have earned our complete trust. They haven't done so. This manuscript is a step forward in terms of accountability and the free flow of information on this crucial subject. Please take the time to read it and share it widely.

SARS-CoV-2 mass vaccination: Urgent questions on vaccine safety that demand answers from international health agencies, regulatory authorities, governments and vaccine developers

Abstract

Since the start of the COVID-19 outbreak, the race for testing new platforms designed to confer immunity against SARS-CoV-2, has been rampant and unprecedented, leading to emergency authorization of various vaccines. Despite progress on early multidrug therapy for COVID-19 patients, the current mandate is to immunize the world population as quickly as possible. The lack of thorough testing in animals prior to clinical trials, and authorization based on safety data generated during trials that lasted less than 3.5 months, raise questions regarding the safety of these vaccines. The recently identified role of SARS-CoV-2 glycoprotein Spike for inducing endothelial damage characteristic of COVID-19, even in absence of infection, is extremely relevant given that most of the authorized vaccines induce the production of Spike glycoprotein in the recipients. Given the high rate of occurrence of adverse effects, and the wide range of types of adverse effects that have been reported to date, as well as the potential for vaccine-driven disease enhancement, Th2-immunopathology, autoimmunity, and immune evasion, there is a need for a better understanding of the benefits and risks of mass vaccination, particularly in the groups that were excluded in the clinical trials. Despite calls for caution, the risks of SARS-CoV-2 vaccination have been minimized or ignored by health organizations and government authorities. We appeal to the need for a pluralistic dialogue in the context of health policies, emphasizing critical questions that require urgent answers if we wish to avoid a global erosion of public confidence in science and public health.

Introduction

Since COVID-19 was declared a pandemic in March 2020, over 150 million cases and 3 million deaths have been reported worldwide. Despite progress on early ambulatory, multidrug-therapy for high-risk patients, resulting in 85% reductions in COVID-19 hospitalization and death [1], the

current paradigm for control is mass-vaccination. While we recognize the effort involved in development, production and emergency authorization of SARS-CoV-2 vaccines, we are concerned that risks have been minimized or ignored by health organizations and government authorities, despite calls for caution [2-8].

Vaccines for other coronaviruses have never been approved for humans, and data generated in the development of coronavirus vaccines designed to elicit neutralizing antibodies show that they may worsen COVID-19 disease via antibody-dependent enhancement (ADE) and Th2 immunopathology, regardless of the vaccine platform and delivery method [9-11]. Vaccine-driven disease enhancement in animals vaccinated against SARS-CoV and MERS-CoV is known to occur following viral challenge, and has been attributed to immune complexes and Fc-mediated viral capture by macrophages, which augment T-cell activation and inflammation [11-13].

In March 2020, vaccine immunologists and coronavirus experts assessed SARS-CoV-2 vaccine risks based on SARS-CoV-vaccine trials in animal models. The expert group concluded that ADE and immunopathology were a real concern, but stated that their risk was insufficient to delay clinical trials, although continued monitoring would be necessary [14]. While there is no clear evidence of the occurrence of ADE and vaccine-related immunopathology in volunteers immunized with SARS-CoV-2 vaccines [15], safety trials to date have not specifically addressed these serious adverse effects (SAE). Given that the follow-up of volunteers did not exceed 2-3.5 months after the second dose [16-19], it is unlikely such SAE would have been observed. Despite 92 errors in reporting, it cannot be ignored that even accounting for the number of vaccines administered, according to the US Vaccine Adverse Effect Reporting System (VAERS), the number of deaths per million vaccine doses administered has increased more than 10-fold. We believe there is an urgent need for open scientific dialogue on vaccine safety in the context of large-scale immunization. In this paper, we describe some of the risks of mass vaccination in the context of phase 3 trial exclusion criteria and discuss the SAE reported in national and regional adverse effect registration systems. We highlight unanswered questions and draw attention to the need for a more cautious approach to mass vaccination.

SARS-CoV-2 phase 3 trial exclusion criteria

With few exceptions, SARS-CoV-2 vaccine trials excluded the elderly [16-19], making it impossible to identify the occurrence of post-vaccination eosinophilia and enhanced inflammation in elderly people. Studies of SARS-CoV vaccines showed that immunized elderly mice were at particularly high risk of life-threatening Th2 immunopathology [9,20]. Despite this evidence and the extremely limited data on safety and efficacy of SARS-CoV-2 vaccines in the elderly, mass-vaccination campaigns have focused on this age group from the start. Most trials also excluded pregnant and lactating volunteers, as well as those with chronic and serious conditions such as tuberculosis, hepatitis C, autoimmunity, coagulopathies, cancer, and immune suppression [16-29], although these recipients are now being offered the vaccine under the premise of safety.

Another criterion for exclusion from nearly all trials was prior exposure to SARS-CoV-2. This is unfortunate as it denied the opportunity of obtaining extremely relevant information concerning post-vaccination ADE in people that already have anti-SARS-Cov-2 antibodies. To the best of our knowledge, ADE is not being monitored systematically for any age or medical condition group currently being administered the vaccine. Moreover, despite a substantial proportion of the population already having antibodies [21], tests to determine SARS-CoV-2-antibody status prior to administration of the vaccine are not conducted routinely.

Will serious adverse effects from the SARS-CoV-2 vaccines go unnoticed?

COVID-19 encompasses a wide clinical spectrum, ranging from very mild to severe pulmonary pathology and fatal multi-organ disease with inflammatory, cardiovascular, and blood coagulation dysregulation [22-24]. In this sense, cases of vaccine-related ADE or immunopathology would be clinically-indistinguishable from severe COVID-19 [25]. Furthermore, even in the absence of SARS-CoV-2 virus, Spike glycoprotein alone causes endothelial damage and hypertension in vitro and in vivo in Syrian hamsters by down-regulating angiotensin-converting enzyme 2 (ACE2) and impairing mitochondrial function [26]. Although these findings need to be confirmed in humans, the implications of this finding are staggering, as all vaccines authorized for emergency use are based on the delivery or induction of Spike glycoprotein synthesis. In the case of mRNA vaccines and adenovirus-vectorized vaccines, not a single study has examined the duration of Spike production in humans following vaccination. Under the cautionary principle, it is parsimonious to consider vaccine-induced Spike synthesis could cause clinical signs of severe COVID-19, and erroneously be counted as new cases of SARS-CoV-2 infections. If so, the true adverse effects of the current global vaccination strategy may never be recognized unless studies specifically examine this question. There is already non-causal evidence of temporary or sustained increases in COVID-19 deaths following vaccination in some countries (Fig. 1) and in light of Spike's pathogenicity, these deaths must be studied in depth to determine whether they are related to vaccination.

Unanticipated adverse reactions to SARS-CoV-2 vaccines

Another critical issue to consider given the global scale of SARS-CoV-2 vaccination is autoimmunity. SARS-CoV-2 has numerous immunogenic proteins, and all but one of its immunogenic epitopes have similarities to human proteins [27]. These may act as a source of antigens, leading to autoimmunity [28]. While it is true that the same effects could be observed during natural infection with SARS-CoV-2, vaccination is intended for most of the world population, while it is estimated that only 10% of the world population has been infected by SARS-CoV-2, according to Dr. Michael Ryan, head of emergencies at the World Health Organization. We have been unable to find evidence that any of the currently authorized vaccines screened and excluded homologous immunogenic epitopes to avoid potential autoimmunity due to pathogenic priming.

Some adverse reactions, including blood-clotting disorders, have already been reported in healthy and young vaccinated people. These cases led to the suspension or cancellation of the use of adenoviral vectorized ChAdOx1-nCov-19 and Janssen vaccines in some countries. It has now been proposed that vaccination with ChAdOx1-nCov-19 can result in immune thrombotic thrombocytopenia (VITT) mediated by platelet-activating antibodies against Platelet factor-4, which clinically mimics autoimmune heparin-induced thrombocytopenia [29]. Unfortunately, the risk was overlooked when authorizing these vaccines, although adenovirus-induced thrombocytopenia has been known for more than a decade, and has been a consistent event with adenoviral vectors [30]. The risk of VITT would presumably be higher in those already at risk of blood clots, including women who use oral contraceptives [31], making it imperative for clinicians to advise their patients accordingly.

At the population level, there could also be vaccine-related impacts. SARS-CoV-2 is a fast-evolving RNA virus that has so far produced more than 40,000 variants [32,33] some of which affect the antigenic domain of Spike glycoprotein [34,35]. Given the high mutation rates, vaccine-induced synthesis of high levels of anti-SARS-CoV-2-Spike antibodies could theoretically lead to suboptimal responses against subsequent infections by other variants in vaccinated individuals [36], a phenomenon known as "original antigenic sin" [37] or antigenic priming [38]. It is unknown to what extent mutations that affect SARS-CoV-2 antigenicity will become fixed during viral evolution [39], but vaccines could plausibly act as selective forces driving variants with higher infectivity or transmissibility. Considering the high similarity between

known SARS-CoV-2 variants, this scenario is unlikely [32,34] but if future variants were to differ more in key epitopes, the global vaccination strategy might have helped shape an even more dangerous virus. This risk has recently been brought to the attention of the WHO as an open letter [40].

Discussion

The risks outlined here are a major obstacle to continuing global SARS-CoV-2 vaccination. Evidence on the safety of all SARS-CoV-2 vaccines is needed before exposing more people to the risk of these experiments, since releasing a candidate vaccine without time to fully understand the resulting impact on health could lead to an exacerbation of the current global crisis [41]. Risk-stratification of vaccine recipients is essential. According to the UK government, people below 60 years of age have an extremely low risk of dying from COVID-19 [187]. However, according to Eudragigilliance, most of the serious adverse effects following SARS-CoV-2 vaccination occur in people aged 18-64. Of particular concern is the planned vaccination schedule for children aged 6 years and older in the United States and the UK. Dr. Anthony Fauci recently anticipated that teenagers across the country will be vaccinated in the autumn and younger children in early 2022, and the UK is awaiting trial results to commence vaccination of 11 million children under 18. There is a lack of scientific justification for subjecting healthy children to experimental vaccines, given that the Centers for Disease Control and Prevention estimates that they have a 99.997% survival rate if infected with SARS-CoV-2. Not only is COVID-19 irrelevant as a threat to this age group, but there is no reliable evidence to support vaccine efficacy or effectiveness in this population or to rule out harmful side effects of these experimental vaccines. In this sense, when physicians advise patients on the elective administration of COVID-19 vaccination, there is a great need to better understand the benefits and risk of administration, particularly in understudied groups.

In conclusion, in the context of the rushed emergency-use-authorization of SARS-CoV-2 vaccines, and the current gaps in our understanding of their safety, the following questions must be raised:

- Is it known whether cross-reactive antibodies from previous coronavirus infections or vaccine-induced antibodies may influence the risk of unintended pathogenesis following vaccination with COVID-19?
- Has the specific risk of ADE, immunopathology, autoimmunity, and serious adverse reactions been clearly disclosed to vaccine recipients to meet the medical ethics standard of patient understanding for informed consent? If not, what are the reasons, and how could it be implemented?
- What is the rationale for administering the vaccine to every individual when the risk of dying from COVID-19 is not equal across age groups and clinical conditions and when the phase 3 trials excluded the elderly, children and frequent specific conditions?
- What are the legal rights of patients if they are harmed by a SARS-CoV-2 vaccine? Who will cover the costs of medical treatment? If claims were to be settled with public money, has the public been made aware that the vaccine manufacturers have been granted immunity, and their responsibility to compensate those harmed by the vaccine has been transferred to the tax-payers?

In the context of these concerns, we propose halting mass-vaccination and opening an urgent pluralistic, critical, and scientifically-based dialogue on SARS-CoV-2 vaccination among scientists, medical doctors, international health agencies, regulatory authorities, governments,

and vaccine developers. This is the only way to bridge the current gap between scientific evidence and public health policy regarding the SARS-CoV-2 vaccines. We are convinced that humanity deserves a deeper understanding of the risks than what is currently touted as the official position. An open scientific dialogue is urgent and indispensable to avoid erosion of public confidence in science and public health and to ensure that the WHO and national health authorities protect the interests of humanity during the current pandemic. Returning public health policy to evidence-based medicine, relying on a careful evaluation of the relevant scientific research, is urgent. It is imperative to follow the science.

Figure legends

Figure 1. Number of new COVID-19 deaths in relation to number of people that have received at least one vaccine dose for selected countries. Graph shows data from the start of vaccination to May 3rd 2021. A) India (9.25% of population vaccinated), B) Thailand (1.58% of population vaccinated), C) Colombia (6.79% of population vaccinated), D) Mongolia (31.65% of population vaccinated), E) Israel (62.47% of population vaccinated), F) Entire world (7.81% of population vaccinated). Graphs were built using data from Our World in Data (accessed 4 May 2021) <https://github.com/owid/covid-19-data/tree/master/public/data/vaccinations>

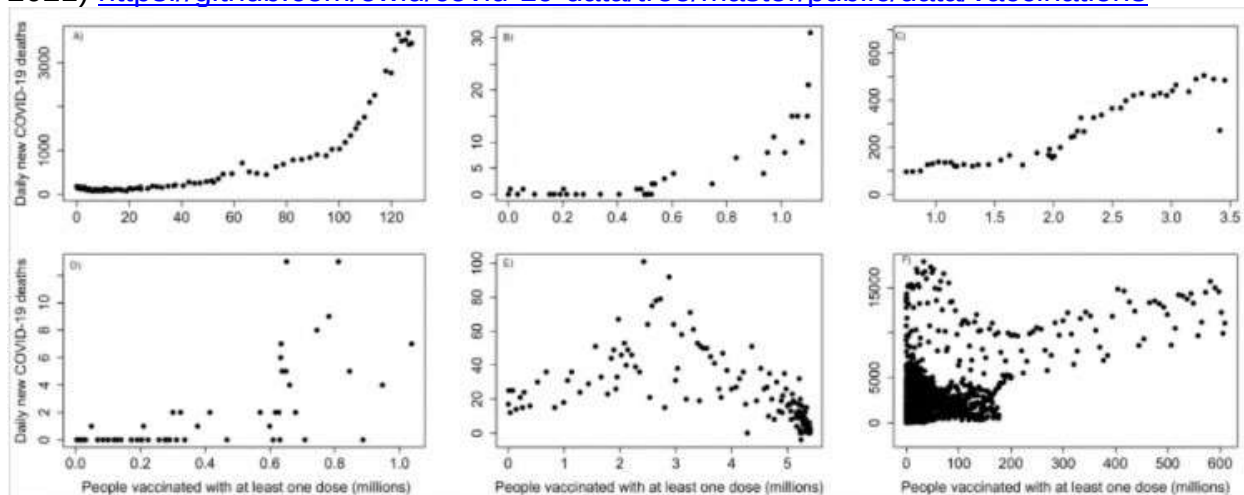

Exhibit D

- 1 Press release. Case against Norway filed at International Criminal Court (ICC)
- 2 Letter to ICC
- 3 ICC claim

1 Press release – ICC – English

PRESS RELEASE From; «The Ad-Hoc Covid Whistle blower group». Date; 12.5.2021. A CASE AGAINST NORWAY IS NOW FILED AT THE INTERNATIONAL CRIMINAL COURT.

<https://howardsopinion.wordpress.com/press-realese-icc-english/>

A claim against Norway was on the 10.5.2021, sent to the ICC, in very thorough claims, based on a massive scale of facts, from a wide range of reliable sources, which constitute a part of the claim.

For crimes against humanity, genocide, war crimes and other serious crimes, including all too many breaches of the Nurnberg Code, which was established after the Nurnberg Tribunal process, after the 2nd World War, for medical experiments done by the NAZI Regime doctors on the civilian population.

The Norwegian political officials have betrayed its own people, by a falsely claimed pandemic; WHO claimed a death rate of 3.4%, based on reports from Nigel Ferguson at Imperial College of UK. The FHI later corrected the death rate down to 0,12%, and below average for an entire flue season.

Further, the Government and the Parliament have criminally misused the Law on Disease Control, which does not come into validity in such a case, but only for more deadly and contagious illnesses, which additionally fills up the hospital beds more than normal. The measures which were decided, are moreover all in clear violations of both the Norwegian Constitution, with a serious breach of many fundamental laws and the Treaty of Rome and its relation to ICC's Chapters 6, 7 and 8s.

The Government and the Health Authorities, have engaged in an extreme psychological warfare, linked to a historical one-sided propaganda, by the TV and Media, 24/7,365. Connected to a strong censorship of alternative narratives, paths of actions, and linked to False Facts on claimed infection.

The lock-downs and the measures taken was in reality economic warfare against the citizens, with draconian consequences for the private sector, in particular travel, hotels, restaurants and culture life. The Government and Health Authorities have caused immense health and economic damage.

Norwegians have been subjected to medical experiments from dangerous PCR Tests, later Antibody tests, later documented to include dangerous test pins and cancer related chemicals, rather than using the well proven blood and lab tests as before. PCR Tests have been used on purpose, to inflate a large number of "False infected positives", using test ct's of 40-45, against recommended max 25. The PCR test was "debunked" last autumn, and WHO recalled it on the 20.1.2021. Despite this, the testing continued, with increased intensity, to create more "infected", in the Lock-step program. The mandatory face mask, are also very harmful, especially for children, and must be stopped ASAP.

It is all a part of an international criminal conspiracy, in which WHO, WEF, Club of Rome, EU, Big Pharma, MSM, Big Tech, Big Gates and Dr Anthony Fauchi have been planning and coordinated take-over for a long time. Linked to Man-Made Virus from the Wuhan Lab.

Now, we are in the «vaccine phase», which is a medical experiment, in violation of all the 10 criteria of the Nurnberg Code. The "vaccines" are connected to at least 150 being killed, with thousands of wounded. The Virus and Vaccines, are both Biological Weapons of mass destructions.

Now, we are pulled into a critical phase, in which "apartheid" is introduced for those not vaccinated. The vaccinated have been totally brain-washed, believing that the vaccines will give them immunity, rather than causing the vaccinated to become biological infection factories, being a human disaster.

All of this, and much more, are part of the detailed claim, which in principle is connected to a claim, which Israeli lawyers filed against the Israeli Government on 1.3.2021, accepted by ICC on 18.3.2021.

It is requested that ICC, with reference to Article 21 C, using the Norwegian Disputes Act, chapter 34, §34-1 b, to INSTANTLY STOP all measures, vaccines included, as a temporary injunction, to prevent more deaths, injuries, foreclosures, and human sufferings in general. Further, to instruct the Medical Agency, to approve effective medicines, to help both Covid and Vaccine casualties. Example Ivermectin, Hydroxyclorenquine, zink and Vitamin D for all Covid-related diseases.

The claim is signed by 4 Norwegian citizens, and extends to Denmark, Sweden and Poland so far.

2. BEFORE THE INTERNATIONAL CRIME COURT-NORWAY-COVID 19.

BEFORE THE INTERNATIONAL CRIMINAL COURT

(TREATY OF ROME, ART. 15.1, 53 and 21)

IN THE MATTER OF GENOSIDE (Chapter 6), CRIMES AGAINST HUMANITY (Chapter 7), AS WELL AS WAR CRIMES AGAINST CIVILIANS (Chapter 8), THE NUREMBERG CODEX / HELSINKI DECLARATION.

Subject of complain; The Government of Norway, Sweden, Denmark and Poland, included ALL national and international “stakeholders” listed in “ICC CLAIM of MAY 8. 2021”.

This script is for NORWAY, all other countries listed will be merged to this case with a separate appendix marked each countries name. (Appendix Denmark, Sweden, Poland).

We address you in the name of the “Ad hoc Covid Fellowship”, a fellowship under establishment, in which the members are jurists, physicians, doctors, business owners, public and general activists and whistle blowers, who made a choice to exercise their democratic right’s not to receive the experimental medical treatment (Corona immunization), and who feel that great pressures, hard and illegal, are exerted upon them on behalf of the above mentioned government, members of Parliaments, local authorities, ministers, health authorities, doctors and nurses, and by an ongoing psychological warfare by the state and main stream media.

We have tried to raise this case through both local Norwegian police and the centralized KRIPOS without any success, we don’t even get the case registered after several attempts.

The statute for the ICC declares that “The ICC is intended to complement, not to replace, national

criminal systems; it prosecutes cases only when States do not or are unwilling or unable to do so genuinely. (article 17-1-a). This is such a case, that is why we address the ICC directly.

With reference to Article 21 C, we humbly ask the prosecutor of ICC to use the Norwegian Disputes Act, chapter 34, §34-1 b, for temporary injunction, to INSTANTLY STOP all measures, vaccines included, to prevent more deaths, injuries, foreclosures, and human suffering in general during the time needed for ICC to investigate the case.

We wish to begin with the basic knowledge on the subject matter:

The **“Corona Virus Vaccine” is an innovative medical treatment**, which has only recently obtained **FDA Approval in the United States (in an emergency use procedure only)**, an approval that is not final, and with details of 22 side effects to the vaccine. Additionally, it is clear to all the medical factors that the subject of the long-range effects and safety of the treatment on its recipients are unknown. It is important to state that never until now, were administered in the entire world immunization by this medical technology of introduction of a synthetic mRNA to the body, and all the previous immunizations operated in a totally different manner, by the introduction of a deactivated or weakened virus and natural arousal of the immunity system against it. As declared by 3 senior virologists, the risks anticipated by this innovative medical treatment are hereby enclosed as **ICC CLAIM – page 8 § b.**

“Nuremberg Code” – Medical ethics codes issued based on laws under which the Nazi criminals were judged for conducting horrible medical experiments during the Second World War, in the physicians’ trial known by the Nuremberg Trials. The Nuremberg Code later constituted the base for the Helsinki Declaration Legislation, as well as the base for the Patient’s Rights laws in all countries.

It is our intention to present to you and in details, how the State of Norway, the Government of each country with its ministers, health authorities and local authorities, additional senior’s factors, violate the Nuremberg Code, in an unlawful manner, blatant and extreme, and to our regret, not only in a single aspect, but many, too many!

1. Informed consent to participate in a medical treatment – **a first principle** of the Nuremberg Code, **is a willingness and informed consent by the person**, to receive treatment and participate in an experiment. The person is supposed to activate freedom of choice, without the intervention of a factor implying force, deceit, fraud, threat, solicitation, or any other type of binding or coercion. When the heads of the Ministry of Health as well as the Prime Minister of each country, presented the vaccines in each country, and began the vaccination of citizens of each country (December 27.2020), in which the vaccination were not advised, that in practice, they are taking part in a **medical experiment**, and that their consent is required for this under the Nuremberg Code/Helsinki-declaration, and only when it became apparent that indeed the Prime Minister signed an Agreement with the EUs EMA, (European Medicine Agency) and the EU Commission, that it indeed was a medical experiment, and that this was the essence of the agreement. This, as a matter of fact, is a **genetic medical experiment on human beings**, performed without the informed consent and under a severe and blatant offense of the Nuremberg Code.

Informed consent is NOT possible since relevant information is not available, not even on direct demand to the health authorities. The reply given, is sending us back to the same webpages where the info requested DONT exist, and they also reject any responsibility to inform «humans/living being» when they say they only reply with this info to other legal fictions like other governmental entities, but none of them is subjects for this vaccine project. (a1)

We also need to bring to the courts attention, that FOLKEHELSEINSTITUTTET (FHI) made a survey, asking the public WHY they wanted to take the vaccine. 3 major arguments were given, but NON OF THEM APPLY to “the real world” since none of them are valid and can be met by

taking the vaccine. Translated, the public's YES to the vaccine is based on the BELIEF that:

- *Taking the vaccine will reduce the number of Covid infections in the society.* – 79% (not valid)
- *Taking the vaccine will protect their families and elders.* 78% (not valid)
- *Taking the vaccine will give them the normal way of life back to what it was like before Covid.* 69% (not valid)

NO Governmental entity (or media) has done anything to clear out this false belief and misunderstandings made by MSM propaganda, which means NONE of the participants to this experimental vaccine have given their TRUE informed consent when it's all based on misunderstandings, misleading propaganda, and the TOTAL lack of actual TRUE information (a-5).

The practice mentioned is in direct violation of the Treaty of Rome chapter 8 Paragraph 2

(i) Wilful killing (ii) Torture or inhuman treatment, including biological experiments, (iii) Wilfully causing great suffering, or serious injury to body or health. (i) Elders in Norway died in large numbers short time after being injected with this experimental vaccine, but they did NOT stop the project. Our authorities claimed these people were very old with a short lifetime left anyway, but it does NOT give anyone the right to kill them with these injections like they did. Norway made it to the frontpage globally for this practice.(a-2)

(ii) The project is clearly a “Biological experiment” using CRISPR gene scissors and mRNA.

(iii) The numbers for dead and seriously injured tell us that the experimental vaccine causes more deaths and seriously injured people, than MEDICALLY UN-TREATED COVID-19 (a-3)
– However, AstraZeneca is put on hold with the argument that the risk of death is higher from the vaccine than from Covid, but the numbers from LEGEMIDDELVERKET show us, that AstraZeneca is one of the “vaccines” with the LOWEST death toll, so it makes no sense that they stop one of the least deadly options, but keep up the program for the others, where death toll is way higher. (a-3, a-4)

(a-1) The yellow marked line says (translated)

Unfortunately, we don't have capacity to reply to questions from private persons.

The EU Commission/EMA-/Pfizer Agreement. Post factum it became clear that the Prime Minister of Norway has signed an agreement with the Pfizer Company and 3 others (the manufacturing companies), under which she will receive a huge quantity of millions of vaccine portions, and in consideration, the vaccinated (Citizens of Norway, will serve as “Experimenters” for the pharmaceutical company. It was agreed, that the pharmaceutical company would receive each state, all their medical, personal secret information, without their knowledge or consent in advance. Additionally, we must state that each citizen of Norway, that until this moment, the contents of the agreement related to most of the citizens of these states, was not published, which is the transparency obligation under the law, and it was published without “blackout” / concealment of a great deal of information included in this agreement. It is worthy to state and recall that we do not live in a dictatorship country, so that clearly, such an agreement must be subject to total transparency towards the wide public.

Norway has 4 vaccine options, Pfizer, Moderna, AstraZeneca and Janssen Cilag. For Norway a project called, NorCRIN, a project similar to Denmark’s, «National Experimental Therapy Partnership (NEXT)» and «Trial Nation» was established late 2019. This project is merging private medical companies with different Governmental entities, so it’s clear that the citizens of Norway has been “sold and delivered as lab rats” to private interests without public knowledge of these facts. (b-1)

(b-1)

c. Alternative treatments. – On the subject of informed consent for medical treatments, and based on the Nuremberg Code principles, an obligation exists to detail and suggest to a patient several treatment alternatives, detailing the medical process (and all that’s included in it), as well as the advantages and the disadvantages, benefits vs risks, existing in every treatment, to **enable him to make an intelligent personal decision**, regarding the treatment he prefers. As stated, this must be done without exerting any pressures and freely, as a free person.

Despite all the above-stated, the State of Norway, and the Ministry of Health, failed to present to the citizens of Norway, the currently existing alternatives for treatment of the Corona disease, proven to be efficient and with few side effects, and not dangerous. They solicit the citizens and pressuring them (while blatantly violating the informed consent process), concealing the information regarding the immunization, and creating a severe atmosphere of fear and coercion.

Relevant Governmental entities still deny the fact that both precautionary treatments (Vitamin D, C, Zink) exists, but they have also made AVIGAN (Japanese antiviral product) illegal for use against Covid, even if this product was available and in use in Norway, as late as Mars 2020 when the pandemic started (NORWAY c-1). Vitamin D (Nobel prize winner in 1928) is also beneficial for treatment of Covid, but even such easily accessible treatment, which according to BMJ (British Medical Journal) can reduce the death toll by 25 X, is NOT delivered as part of medical treatment. (NORWAY c-2 – c-3).

IVERMECTIN studies from around the world show a reduction in mortality from 80 to 96%, and our claim is that denial of this medical treatment shall be judged equal to murder. Norwegian Doctors who prescribe any of the above-mentioned medical treatments for Covid will lose their medical license. (c-6)

(c-6) Statement from the Norwegian GP Doctor Kjetil Johansen – Date; 6.5. 2021.

As a GP in Norway: I am NOT allowed to prescribe any of the known and effective medicines against a Covid19 diagnosis. Instructions from WHO, via EMA to the Norwegian medicine agency, "Legemiddelverket", who issued the "Felleskatalogen", the catalogue of approved medicine connected to specific diagnoses. We are NOT allowed to prescribe HCQ, hydroxychloroquine like "Plaquenil", for Covid, even though it is approved for other diagnoses like Rheumatoid Arthritis. Neither can we prescribe Ivermectin for Covid, even if it is a substantial medical drug, which suggests that it is very effective. The only treatment we are allowed to issue is Azitromax 500 mg, (antibiotic) for treatment of lung inflammation.

Related to this, but not related to COVID, is a now 40-year-old fraudulent practice (starting 1981) with documentary fraud made by HELSEDIREKTORATET, about the positive effects of psychopharma, where the claims made is an effect of 90%, while peer reviewed research, shows that the effect is only 20%. The peer reviewed research also show that the lifespan of each patient, is reduced with 10 to 30 years from using these non-working medications, but WITHOUT this info, are given to anyone where this medication is prescribed. Both the former High court judge Kjetil Lund, and the Norwegian OMBUDSMANN have tried to stop this fraudulent practice for many years, without success. Many thousands of psychiatric patients, have been treated with this medications, against their will for this reason, and many thousands of others have had their life quality destroyed. Their life span has been reduced by 10 to 30 years, as an effect of this fraud. Since HELSEDIREKTORATET is deeply involved in the COVID case, we saw the need to bring this subject to the courts attention. This fraud constitutes a clear violation of the Treaty of Rome. (c-7)

All the above mentioned under (c), are in direct violation, but not limited to Article 7, (a) Murder, (f) Torture (k) *Other inhumane acts of a similar character intentionally causing great suffering, or serious injury to body or to mental or physical health*, (and is overlapping with chapter 8 Paragraph 2), (i) *Wilful killing* (ii) *Torture or inhuman treatment*, (with the intention to indirectly force its citizens to take part in a) *biological experiment* (the vaccines), (iii) *Wilfully causing great suffering, or serious injury to body or health*.

A more detailed argumentation for all violations of the Treaty of Rome, and the involved “stakeholders” on national and international level follows as “ICC CLAIM – MAY 8. 2021”.

(c-7) the now 40-year-old documentary fraud practice who continues by HELSEDIREKTORATET where not even the Norwegian OMBUDSMANN has been able to stop it. (2019)

<https://www.aftenposten.no/meninger/debatt/i/kJK5qL/helsedirektoratet-saboterer-sivilombudsmannen-ketil-lund?fbclid=IwAR174PFg743KRnBf3HS0ZsVdxwJ55UbmfgV0lk3hopRVrgq52xMFI3vIA3o>

- **A fourth principle is that the experiment will be conducted to prevent suffering of physical injury.** It is known that the treatment caused the death of many, injuries, and severe damages (including disablement and paralysis) after the vaccine was administered. Despite this fact, the Governments did not instruct the initiation of an investigation on the matter. It is well documented that there are large numbers of deaths and seriously injuries related to taking the vaccine. (a-2)
- **A fifth principle is that the experiment must be aborted when there is reason to assume that death or real injury will occur.** Regarding the violation of this principle, see above. (a-2)
- **An additional principle is that responsible factory will be ready to stop it at any stage, if there is reasonable cause to assume that it will cause injury, disability, or death of the experiment participant. It has already been proven that many and healthy persons died from the treatment, were injured, became disabled, and paralyzed; However, the Governments of Norway continues to compel this dangerous experiment on its citizens, but have stopped one of the least deadly options.** (AstraZeneca) (a-2)
- The following are recent publications, which demonstrates the blatant and criminal violations of the Nuremberg Code on behalf of the Government, the Ministers, and the Members of Parliaments, the mayors, and doctors, and senior public factors, as well as employers.
- Below are some examples (out of many) of the Nuremberg Code Violations.

Exert economic pressure; (focus on health care workers).

1. Within the health care sectors, backed by a legal opinion of FHI, people who are NOT vaccinated, are threatened to be sent to other posts, or on unpaid leave. (f-4)
2. – Norwegian law about “SMITTEVERN” (Law of infection control) opens for MANDATORY VACCINATION, for COVID, in violation with the Treaty of Rome like described under (c) (f-1)
3. – Norways health minister, warns those who don’t participate. (f-2), and the Prime Minister is questioning if workers can be denied access to their jobs (f-3)

(f-1) Law – forced vaccination

(g-4) Letter – healthworker in Norway beeing fired for not taking the vaccine. (google translate from Norwegian)

Have been somewhat frustrated after you called me on Wednesday 14 April. Is it really so that you are considering dismissing me because I am unable to wear a mask? I was completely put out as you can see, as I have no other job to go to. I got the understanding that this mask case is also the basis for the fact that I have been assigned a few guards lately, which has a very negative effect on me as I basically only have 21% «call-up substitute position».

Possibly I misinterpreted you when you based the possible dismissal that I did not follow the guidelines for the coronary measures, and that I represent an infection bomb among the users? You also mentioned that I could be placed in another department, but I also have little understanding of the purpose of this. As an unvaccinated and mask-refuser, will I be considered a potential danger no matter where I am placed? I thrive very well in the department I work at now, and the users give the impression that they really appreciate me, something they often show.

In a closed ward like this, closeness, contact and care are especially important, and it gets wrong when the residents instead feel fear and distance when we wear a mask.

I understand that you as a leader have a great responsibility in these difficult times, but I just had to air this with you. I think you are a super boss, but that you sometimes have to make difficult decisions that those at the top so easily get away with. Wish you a nice day. .

Sincerely, G.

The Exertion of social pressure

1. A threat to prevent entrance to entertainment, leisure, travel, receipt of services from the community.
2. Artists, opinion leaders, and public representatives, who in every corner elect to make propaganda and aggressively and insulting manner, even propose punishment and sanctions against those who don't "take their part of the burden".

It shall hereby be emphasized, that the means currently activated against citizens, includes legislations proposals, and directives, against whoever was not vaccinated, contradicts not only the Nuremberg Code and the individual's autonomy over his body, but also the existing legislation in each country, including Personal Dignity, and Freedom basic law, the Freedom of occupation law, the Patient's rights law, the Work equal opportunity law, the Prohibition of Discrimination in Product, Services, the Entrance to Entertainment and Public Places law, and other laws.

Therefore and considering the stated above, we address your honour with two main demands:

1. **WE STRESS THE NEED – To take actions for a IMMEDIATE STOP of the medical experiment and the administration of vaccinations, and ALL other measures, using Norwegian law Disputes Act, chapter 34, §34-1 b, for temporary injunction.**
2. To instruct the Governments to stop all the legislative proceedings which infringe on the principle of Informed Consent by a person, to receive the above-described medical treatment, and which negates the legal status in Norway's democracy, including the avoidance to legislate Green Passport, delivery of names of those who are not vaccinated, to the local authorities, or any other harming legislatures.
3. To act in the most required severity against any public, business, employment entity, which violates the laws of the State on subjects of employment, or the other subjects required to prevent compulsion, coercion or solicitation to vaccinate, as well as the subject of discrimination, against those who made a choice, NOT to receive the above-stated innovative medical treatment.
4. We ask to bring to your attention that a copy of this document will also be forwarded to the media channels worldwide, since the Nuremberg Code violations and violations of the treaty of Rome, are relevant in all countries of the free world.

5. And as a final note, it shall be stated that only recently, a decision was reached in the European Parliament on 7/1/21, instructing all the authorities, not to activate any pressure, solicitation or discrimination, against any person, who choose NOT to take the Corona vaccine. Therefore, whatever is good for the advanced European States, certainly also is good for Norway, (and Denmark and Poland).

Consequently, all subsequent correspondence should be sent only to the mailing and / or email address given below. Any notification within the meaning of the Statute of the Court, addressed in this way, will be considered valid ONCE FILED AND PROCESSED.

The application will be represented for the purpose of this procedure by:

Anders Brunstad – Norwegian citizen and resident of Poland.

Lisbeth Lamey – Norwegian citizen and resident of Sweden.

Runar Lorgen – Norwegian citizen and resident of CA, USA.

LEGAL STANDING

– Lars-Hovard Fritzson Widding

Me the signature holder of the claims against both Norway and Denmark, is born in Norway with Norwegian citizenship and passport. I moved to Denmark in 2001 with my wife and 2 kids, who was born in 1998 and 1999 in Norway. Since October 2000, I've owned my own real estate in Denmark and both my kids (now young adults) live and work in Denmark.

I no longer live in Denmark, but should have been back to Denmark medio January 2021 due to a 3 day court case in March 2021, but PCR test requirements (less than 24 hours old at entry), has made it impossible to return like planned, and for that reason, my real estate was totally damaged due to the coldest February, in 20 years. No insurance cover this, and the damage would never occur if I were not prevented from entering Denmark like planned, and today today May 8. 2021 I'm still not able to return, so Danish measures, have in reality, confiscated my whole property and prevented me from being with my own family. This means that I'm one of the many victims to policies and meaningless measures, where my whole fortune, my real estate in Denmark, is lost.

Respectfully

Lars-Hovard Fritzson Widding

Jurist & Advocate of Human Rights and Natural law.

BEFORE THE INTERNATIONAL CRIMINAL COURT (TREATY OF ROME, ART. 15.1 AND 53)

IN THE MATTER OF GENOSIDE (Chapter 6), CRIMES AGAINST HUMANITY (Chapter 7), AS WELL AS WAR CRIMES AGAINST CIVILIANS (Chapter 8 2), AND CRIMES OF AGGRESSION (Chapter 8 ³), and the Nuremberg codex / Helsinki declaration.

Based on the extensive claims and enclosed documentation, we charge those responsible for genocide, crimes against humanity, war crimes, and crimes of aggression, in each of the countries of The Kingdom of Norway, the Kingdom of Sweden, The Kingdom of Denmark as well as the Polish republic, and the United States of America. But not limited to individuals in these countries. Poznan, Poland on the 8.5. 2021, signed on the Norwegian Independence day.

An overview of the Base for a Crime Report to ICC as part of the Treaty of Rome.

From; Anders Brunstad, Lars Widding, Lisbeth Lamey, and Runar Lorgen.

Date; 8.5.2021, the Norwegian Independence day.

Legal Case; ICC Chapter 6, 7 and 8 plus 8bis.

Types of CRIMES Done to the “human Race”.

- (1) The Development of Bioweapon “Cov-SARS2” for mass destruction of human lives.
 - For Biological Warfare. Ref. enclosures. Wuhan Institute of Virology.
- (2) The Development of “mRNA” gene therapeutics falsely labelled as “vaccine”.
 - For use as a Biological Warfare weapon against the entire human race.
 - By BioNtech, Pfizer, Moderna, Astra Zeneca and Johnson & Johnsen.

- **(3) The Development of FALSE PCR tests and Antigen Tests.**
 - Developed by Dr Christian Drosten, with financial support from Bill Gates.
 - For psychologic warfare and to justify measures. Ref. enclosures.
- **(4) The using of False Positive PCR Tests and “false positives”**
 - to administer “Lock-downs”, by the “Lock-step” mechanism, as a method of crashing the economy and democratic nations by creating a man-made crisis.
 - As a Base for economic Warfare on the civil population.
- **(5) The forced, mandated use of Dangerous “test pins” with very harmful effects.**
 - Ref. Report Bratislava. DARPA. US Military. Lipid / Magnetic crystals.
 - The manufacturers, distributors, and administers of the test pins.
- **(6) The using of dangerous Cancer related chemicals in test pins into the nose.**
 - As proven in reports. As above. Crimes by producers and all involved.
- **(7) The “Rejection by EMA and Legemiddelverket” to approve the use of effective**
 - Covid medicines like HCQ / hydroxychloroquine like “Plaquenil”, for Covid19 treatment, as many studies shows are highly effective,
 - along with Ivermectin plus Zink, also proven by many studies.
 - and does not even recommend the use of D vitamin to enhance the lowered Immune system during the darker winter months, which is the main cause of defect immunization of human, especially for persons with darker skin colours, who is a very over-represented group for this reason only.
 - Causing massive deaths and the risks of serious long term side effects.
- **(8) The mandatory use of Face Masks, with no proven effectiveness according to studies, but with massive, proven bad side effects, not limited to the following ones;**
 - Accumulation of bacteria, causing illness and lowered immune system.
 - Accumulation of viruses, causing illness, as documented enclosed.
 - Reduction of oxygen, bad for all, extremely bad for children and the vulnerable.
 - Micro plastic toxic (nano particles).
 - Proven microbes and other dangerous findings.
 - Developing “mouth infections” due to bad air quality, which may lead to bleeding, and finally resulting in a higher risk of getting a heart attack.
 - Psychologic warfare; making people terrified of others and panicking.
- **(9) Introduction of “Medical Apartheid”, limiting the Human Rights and freedom for those persons who choose not to be vaccinated by introducing “vaccine passports”.**

- (10) The Risks for exposure to “vaccinated” people becoming Bio-weapon factories.
- (11) Corruption and propaganda from both State Controlled media and MSM.
- (12) Norwegian Parliament members. Guilty of Crimes against Humanity, war crimes by applying acts of psychological warfare, economic and biological warfare.
 - Crimes against Humanity and Biological weapons on its own people by allowing new mRNA and DNA changing drugs on its people, by new legislations in the summer of 2020, in violations of the Nurnberg code.
 - With extreme bad short-term effect.
 - And extremely long-term risky effects.
 - And later to approve these extreme dangerous medical experiments on the population, at large.
- (13) Norwegian Media. For propaganda and censorship to promote a fascist regime.
 - NRK. For false information and propaganda on Covid, “positive tests”, and not informing of effective medicines and the dangerous vaccine.
 - TV2. The same as above.
 - VG and all of the Norwegian Main-Stream Media. Fake news about the Israeli vaccine project, and part of the full totalitarian media narrative on Covid, Vaccines and “sick people”.
 - NTB. The same. And the “Fakta.no”. False reporting, censorship.
 - Resett.no for promoting False and damaging reports from NTB.
- (14) The very strong censorship activities by both Global MSM and Big Tech by;
 - MSM across all countries.
 - Facebook. Massive censorship and False Labelling claiming that “Ivermectin” and HCQ to be “dangerous” when they are actually saving lives.

Massive censorship including closing of accounts, punishment of people who claim facts on effective medicines, the danger of vaccines, the origin of the Virus Covid 19 being a “gain of function” bioweapon.

- Twitter. Same as above.
 - Google. Same as above. Massive censorship activity on the real facts and promoting a false narrative and claims about vaccine safety.
- (15) Crimes of corruption done by Bill and Melinda Gates, and the GAVI Foundation,
 - by sponsoring “research” done by Nigel Ferguson at Imperial college, with several million USD, linked to his false “Pandemic claim” in 2020.
 - by sponsoring the private organization WHO by 107 mill USD,

- By “PCR Test research and others for Christian Drosten funded via Charite Hospital, Berlin by several million USD.
- BBC by many million USD for “Covid education” propaganda work.
- And many others TV and Radio stations and news outlets (MSM).
- (16) Crimes done by WEF and their plans of a “the Great Reset” by Klaus Schwab, Børge Brende & Co. Of coordination and planning of this global conspiracy of “the Great Reset”, and “the Build back better narrative”, according to his own book and presentations of this subject. And coordinated with WHO, National Leaders, and the Globalist Elite.
- (17) Crimes done by WHO. By declaring a false pandemic, and the instruction to use a False PCR Test method. And fail to inform countries of known effective medicines.
 - Crimes done by UNICEF for “Covid vaccination program” of children.
- (18) Crimes done by Dr Christian Drosten. By his false PCR Test method. And his false claim that people can still be sick and spread it without having symptoms.
- (19) Crimes done by Neil Ferguson. Imperial College. False claims about 7 billion infected. And false claim of a 3.4% death rate. As “scientific base of the pandemic”, connected to receiving several million USD in “support” from Bill Gates.
- (20) Crimes done by RKI, EMA in EU. False statistics based on False PCR tests. Approving extreme dangerous “Vaccines”, only approved for Emergency use. And for not approving the “off label” good medicines for the treatment of Covid19.
- (21) Crimes done by Legemiddelverket and FHI As above. By making massive harm.
- (22) Crimes done by the management of FHI, Legemiddelverket, the health director of the Health Agency, and Health Minister.
 - False claimed Pandemic, connected to the False Claims by Nigel Ferguson and WHO, by claiming that “Cov-Sars2” was a 3,4% infectious disease, due to false, unscientific models by Nigel Ferguson and “Bill Gates” funds.
 - False use of PCR and Antigen tests. False claims of “infected” people, a false claim of asymptomatic non-existing infected people and not using “blood test for lab verification”, which would have exposed the false tests.
 - False use of law on infection control. Because Covid 19 is less deadly, and less contagious, and causing less hospitalization than the 2016/2017 virus, as well as the 2018/2019 viruses.
- (23) The Government of Norway and the Health Ministers.
 - For declaring a False Flag Pandemic, linked to lies by Nigel Ferguson and WHO, claiming 3.4% infectious disease, later corrected to 0,12% by FHI.
 - For using a False PCR Test to find False positives and stop “lab methods”.
 - For proposing a “Biotechnology Law” in 2020 that is a clear violation of the Nurnberg Code for Medical experimentation.

- For falsely using the “law on infection control” and for taking measures clearly against the Constitution against Chapter 28 in the Constitution.
- For pushing a psychological warfare against its entire civil population.
- For pushing the lock downs as an economic warfare against its population.
- For introducing dangerous masks mandates against its population.
- For introducing dangerous Covid Tests Products into its population.
- For closing schools and businesses against their human rights.
- For torture and terror by all above measures causing a mass increase of suicides and domestic related violence.
- For closing down the Cultural life and social life on a massive scale.
- (24) Doctors at all the Local Councils, Counties, and city Hospitals.
 - For accepting to use False and harmful PCR Tests and Antigen tests.
 - For pushing and administering vaccines against the “Nurnberg Protocol”.
 - For stopping the real “blood test” lab tests as the scientific test method.
- (25) Mayors allowing for false PCR Tests, Dangerous vaccines, Dangerous PCR tests.
 - For being legally responsible for both False PCR Tests and extremely dangerous vaccination programs at local communities and medical centres.
 - For closing down schools and businesses.
 - For closing down rights to be at your own cottage and being refused to visit old or sick family members and those on death beds.
- (26) The Church of Norway. For Vaccination propaganda.
 - The Christian newspaper “Dagen” for also pushing the vaccines.
 - None of the above have any medical expertise to make such claims.
- (27) Bio Warfare Crimes done by the Covid19 Vaccination manufacturers +BioNtech.

The above types of crimes constitute some, but not all off the crimes against the Humanity of the Norwegian People, of actual War Crimes, and Crimes of Aggression.

VIOLATION OF ARTICLE 32 OF THE 1949 GENEVA CONVENTION IV.

Under Article 32 of the 1949 Geneva Convention IV, “mutilation and medical or scientific experiments not necessitated by the medical treatment are prohibited. According to Article 147, conducting biological experiments on protected people, is a grave breach of the Convention.

The “experimental” vaccine is in violation of all 10 of the Nuremberg Codes, which carry the death penalty for those who seek to violate these International Laws.

The “vaccine” fails to meet the following five requirements to be considered a vaccine and is by definition a medical “experiment” and trial:

Provides immunity to the virus

This is a “leaky” gene therapy that does not provide immunity to Covid and claims to reduce symptoms yet double-vaccinated are now 60% of the patients requiring ER or ICU with covid infections.

Protects recipients from getting the virus

This gene-therapy does not provide immunity and double-vaccinated can still catch and spread the virus.

Reduces deaths from the virus infection

This gene-therapy does not reduce deaths from the infection. Double-Vaccinated infected with Covid have also died.

Reduces circulation of the virus

This gene-therapy still permits the spread of the virus as it offers zero immunity to the virus.

Reduces transmission of the virus

This gene-therapy still permits the transmission of the virus as it offers zero immunity to the virus.

The following violations of the Nuremberg Code are as follows:

Nuremberg Code #1: Voluntary Consent is Essential

No person should be forced to take a medical experiment without informed consent. Many media, political and non-medical persons are telling people to take the shot. They offer no information as to the adverse effects or dangers of this gene-therapy. All you hear from them is – “safe and effective” and “benefits outweigh the risks.” Countries are using lockdowns, duress and threats to force people to take this vaccine or be prohibited to participate in a free society under the mandate of a Vaccine Passport or Green Pass. During the Nuremberg trials, even the media was prosecuted, and members were put to death for lying to the public, along with many of the doctors and Nazis found guilty of Crimes Against Humanity.

Nuremberg Code #2: Yield Fruitful Results Unprocurable by Other Means

As listed above, the gene-therapy does not meet the criteria of a vaccine and does not offer immunity to the virus. There are other medical treatments that yield fruitful results against Covid such as Ivermectin, HCQ, Vitamin D, Vitamin C, Zinc, which boost the immune system against flu and colds.

Nuremberg Code #3: Base Experiments on Results of Animal Experimentation and Natural History of Disease

This gene therapy skipped animal testing and went straight to human trials. In mRNA research that Pfizer used – a candidate study on mRNA with rhesus macaque monkeys using BNT162b2 mRNA and in that study all the monkeys developed pulmonary inflammation. However, the researchers considered the risk low as these were young healthy monkeys from the age of 2-4. Despite this alarming development Pfizer proceeded to develop their mRNA for Covid without animal testing.

Nuremberg Code #4: Avoid All Unnecessary Suffering and Injury

Since the rollout of the experiment and listed under the CDC VAERS reporting system over 4,000 deaths and 50,000 vaccine injuries have been reported in America. In the EU over 7,000 deaths and 365,000 vaccine injuries have been reported. This is a grievous violation of this code. In Norway, more than 150 have died following vaccination, and thousands of injuries, many serious.

Nuremberg Code #5: No Experiment to be Conducted if There's Reason to Think Injury or Death Will Occur

See #4, based on fact-based medical data this gene-therapy is causing death and injury. Past research on mRNA also shows several risks that have been ignored for this current trial gene-experiment. A 2002 study on SARS-CoV-1 spike proteins showed they cause inflammation, immunopathology, blood clots, and impede Angiotensin 2 expression. This experiment forces the body to produce this spike-protein inheriting all these risks.

Nuremberg Code #6: Risk Should Never Exceed the Benefit

Covid-19 has a 98-99% recovery rate. The vaccine injuries, deaths and adverse side-effects of mRNA gene-therapy far exceed this risk. The use of “leaky” vaccines was banned for agriculture use by the US and EU due to the Marek Chicken study that shows ‘hot-viruses’ and variants emerge... making the disease even more deadly. Yet, this has been ignored for human use by the CDC and EMA knowing fully the risk of new deadlier variants emerge from leaky vaccinations. The CDC and EMA is fully aware that

the use of leaky vaccines facilitates the emergence of hot (deadlier) strains. Yet they've ignored this when it comes to humans.

Nuremberg Code #7: Preparation Must Be Made Against Even Remote Possibility of Injury, Disability or Death

There were no preparations made. This gene therapy skipped animal trials. The pharmaceutical companies' own Phase 3 human clinical trials will not conclude until 2022 /2023. These vaccines were approved under an Emergency Use Only act and forced on a misinformed public. They are NOT FDA or EMA-approved.

Nuremberg Code #8: Experiment Must Be Conducted by Scientifically Qualified Persons

Politicians, media and actors claiming that this is a safe and effective vaccine are not qualified. Propaganda is not medical science. Many retail outlets such as Walmart & drive-through vaccine centers are not qualified to administer experimental medical gene-therapies to the uninformed public.

Nuremberg Code #9: Anyone Must Have the Freedom to Bring the Experiment to an End at Any Time

Despite the outcry of over 85,000 doctors, nurses, virologists and epidemiologists – the experiment is not being ended. In fact, there are currently many attempts to change laws in order to force vaccine compliance. This includes mandatory and forced vaccinations. Experimental 'update' shots are planned for every 6 months, without any recourse to the growing number of deaths and injuries already caused by this experiment. These 'update' shots will be administered without any clinical trials. Hopefully this new Nuremberg Trial will put an end to this crime against humanity.

Nuremberg Code #10: The Scientist Must Bring the Experiment to an End at Any Time if There's Probable Cause of it Resulting in Injury or Death

It is clear in the statistical reporting data that this experiment is resulting in death and injury yet all the politicians, drug companies and so-called experts are not making any attempt to stop this gene-therapy experiment from inflicting harm on a misinformed public.

Article 6

Genocide

For the purpose of this Statute, "genocide" means any of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group, as such:

- (a) Killing members of these group;
 - *The Group in this case is in principle "the entire human race", Starting with the Elderly, chronically ill and disabled (useless eaters).*
- (b) Causing serious bodily or mental harm to members of the group;
 - **Massive death by the Man-Made, biological weapon Cov-SARS-2 virus.**
 - **Proven long-term effects 8 months after first being infected by the virus.**
 - **Massive short-term damage and death by the Vaccines.**
 - **Expected long term effects as above of the vaccinated.**
 - **Statistical evidence suggest massive increase of death after "vaccination".**
 - **Big mental harm have been given by massive psychologic warfare 24/7-365, related to Covid illness, "false positives", lack of medication and mass vaccinations.**
- (c) Deliberately inflicting on the group conditions of life, calculated to bring about its physical destruction, in whole or in part;
 - **Physical destruction of wealth and businesses by the destructive lock downs.**
 - **Inflicting damage to the immune system of all those who either got ill of the virus and/or got vaccinated, the mask mandate, and mandatory tests regime.**
 - **Statistics proves that those who got vaccinated are much more exposed to get seriously ill, and that family members of those who got vaccinated, are becoming ill or die. This is an extreme alarming signal for how the future will become.**
- (d) Imposing measures intended to prevent births within the group;
 - **Proven strong increase in spontaneous abortion after Covid-vaccination.**

- **Expected reduction of fertility after vaccination by change of human DNA.**
- **Formal advises are given from both the Vaccine manufacturers and the distributors, to postpone planned parenting (to reduce risk) due to the vaccination.**

Article 7

Crimes against humanity

1. For the purpose of this Statute, “crime against humanity” means any of the following acts when committed as part of a widespread or systematic attack directed against any civilian population, without knowledge of the attack:

(a) Murder;

- **Statistics from Legemiddelverket (Norway) shows deaths more than 150 in 4 months.**
- **These deaths and murder attempts are a function of the administration of deadly vaccines. And the death toll increases by the weekly official death statistics.**
- **Additionally, a huge number of vaccinated people, are getting seriously ill and are risking dying from an immune system failure, in the not distant future.**

(b) Extermination;

- **There is good reason to assume that a large part of the human race is at risk for either serious illness or death, with a reference to the recent mRNA experiments on animal studies back in 2012-2013, in which most animals died within 2 weeks, equivalent to 1.5 years for humans. The vaccinated are exposed to the very same “man-made spike protein” from the virus. Both the virus and the vaccines have proven to be able to change the Human DNA. The immune system is likely never to return to what it was. Several very high-level immunologists and vaccine designers have warned of very dangerous new mutants of the virus and deadlier than other known viruses. In the worst possible scenario, most of the human race will perish. Ref. Dr Geert vanden Bossche, Dr PHD Dr Michael Yeadon, ex VP Pfizer, and Dr Francis Boyle.**

(c) Enslavement;

- **Medical apartheid by the separation of vaccinated and non-vaccinated as regards to “human rights”.**
- **Forced lock-down and economic warfare.**
- **Freeze of freedom of travel national and international.**
- **Enslavement by denial of visiting friends and family, old and sick relatives.**

(e) Imprisonment or other severe deprivation of physical liberty in violation of fundamental rules of international law;

- **Quarantine hotels for both healthy people and false positive “PCR tests” and “fast tests”, are kind of imprisonments that are illegal by national and international laws.**
- **Severe deprivation of physical liberties of travel, visiting friends, arranging parties, taking part in cultural and sports activities, religious liberty of gatherings in churches.**

(f) Torture;

- **Psychological terror and warfare (mental torture) is being administered by the Government, State Media and Main-stream media along with Social Media platforms like Facebook, Twitter and Google.**

- **Massive pain from the side effects of the vaccines, with bleedings and very low level of red blood platelets, causing lack of oxygen and a very wide range of “diagnoses”.**

(g) Rape, sexual slavery, enforced prostitution, forced pregnancies, enforced sterilizations, or any other form of sexual violence of comparable gravity;

- **One possible effect of vaccines, may be an “enforced sterilization”.**
- **We claim that forced use of PCR Test swabs deep into the nose is a rape crime.**

(h) Persecution against any identifiable group or collectively on political, racial, national, ethnic, cultural, religious, gender as defined in paragraph 3, or other grounds that are universally recognized as impermissible under international law, in connection with any act referred to in this paragraph or any crime within the jurisdiction of the Court;

- Persecution against all religious groups being hindered to go to places of worship.
- Persecution against almost all sport activities and cultural activities.
- Persecution against families not being able to be together at big annual events, cancelled the Celebration of the Norwegian Constitution day “due to the pandemic”, an attack of the freedom and our democracy, the first step towards totalitarianism. The same was done for this year. Further, religious holidays like Easter and Christmas were cancelled both last year and this year. A strong attack on our fundamental rights.

(j) The crime of apartheid;

- The real effect of the new “vaccine passport” is to introduce a new form of medical apartheid, for the benefit and pressure to get vaccinated, against those who are not vaccinated, who are deprived of the same rights to travel and go to restaurants without taking the vaccine.

(k) Other inhumane acts of a similar character intentionally causing great suffering, or serious injury to body or to mental or physical health.

- The Social-distancing, and the mask mandate, and all the Covid19 regulations, as well as the vaccination pressure, are reasons for serious injury to body, mind and soul.

Article 8

War crimes

1. The Court shall have jurisdiction in respect of war crimes, in particular when committed as part of a plan or policy or as part of a large-scale commission of such crimes.

2. For the purpose of this Statute, “war crimes” means:

(a) Grave breaches of the Geneva Conventions of 12 August 1949, namely, any of the following acts against persons or property protected under the provisions of the relevant Geneva Convention:

(i) Wilful killing;

- When we have statistical data of the death rate of the so-called vaccinations, killing a relatively stable proportion of the “victims”, with numbers increasing as a function of more vaccinations, it is a logical conclusion that the continuing use of these vaccines constitutes a wilful killing. Even if the victims are mainly old, we also have a rather high proportion of deaths and harm for younger and healthier people. With a huge increase in the risk of dying, for all age groups less than 60, due to the side effect of the vaccines.

(ii) Torture or inhuman treatment, including biological experiments;

- The Cov-SARS-2 Virus is a man-made “gain of function virus”. It was created as a “biological experiment” at the Wuhan Institute of Virology during a period of at least 10-15 years, according to massive documentation enclosed hereby. The Virus was released, either by an accident or deliberately.
- The development of such a biological weapon is a crime on its own merit.
- The use of the masks by a mandate also constitutes a biological experiment. Which has caused massive harms as documented by several studies.
- The use of the test-pins and the use of cancer rated chemicals in the noses of millions of humans are also clearly a biological experiment or warfare.
- The so-called vaccines are only approved for emergency use only, and the massive use of these gene therapy drugs constitute the largest biological experiment in human history and causing an irreversible change to the DNA, through the Vaccination.
- Such an experiment into our DNA, is the worst crime ever done to the human race, totally without informed consent.

(iii) Wilfully causing great suffering, or serious injury to body or health;

- The lock-down of businesses and free travel has caused great economic harm.

- **The forced use of face masks has caused great harm both physically and mentally.**
- **The closing down of hospitals, doctor's offices and sports centers has clearly caused serious injury to body and health.**
- **The vaccines are proven to kill and make major damage to health, based on the short-term effects only.**
- **The psychological warfare, and economic warfare by the lock downs, combined with the medical and biological warfare causes immense injury to the health.**
- **The denial of use of effective medicine (HCQ, Ivermectin), against Cov-Sars2 is a cause of serious injury to body or health. And caused many deaths in Norway.**

(iv) Extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and want only;

- **The extensive economical destruction of business activity, as well as private wealth and personal and business income, leads to the massive appropriation of property for people, who are not able to get a normal income due to all the effects of the lock downs and economic destructions.**
- **The unlawful Covid-19 policies leads to an economic melt-down, and a large increase in "appropriation of private property" by banks, even if it is done "lawfully", due to foreclosures.**
- **A massive transfer of property from the middle class to the ultrarich Globalists will be the consequence of these policies worldwide.**

(i) Intentionally directing attacks against the civilian population as such or against individual civilians not taking direct part in hostilities;

The whole human race is under attack by all the measures and biological warfare, which is an integrated part of a psychological and economical warfare.

(iv) Intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects or widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated;

- **The creation of the Cov-SARS-2 virus was the pre-condition for launching this attack.**
- **There is a long timeline going back to the 1990s and the first SARS1 virus, as to the MERS Virus. And to both US Military biological research (DARPA), linked to French, British, Australian and to a large extent the Chinese efforts done during more than 15 years.**
- **There is a clear link to the so-called Globalist Elite, the Club of Rome, the WEF (Club of Davos), Globalist politicians, the biggest Capitalists on earth, and their plan of Agenda 2030 (UN), WHO, and "the Great Reset".**
- **These people have clearly spoken of a need for a great global depopulation, and Bill Gates among others, have stated that the Vaccinations is one way to do it.**
- **Gain of Functions manipulation of Virus has given the virus properties that makes it able to spread 10-20 times compared to the SARS 1 and MERS. All Corona viruses. The scientists behind, have created a dangerous synthetic Virus, as documented enclosed. With a dangerous "Hiv GP120" component to make it dormant, like HIV.**

- The project seems to be a Global conspiracy to radically change both the demographical as well as the political landscape, by a transformation from a democratic system into a totalitarian world, to be ruled by a corrupted, tyrannical elite.
- The massive destruction of life, the effect of the economical warfare, connected to a claimed medical emergency, and a massive psychological warfare operation, with the initial attempt to brain-wash much of the population, to make them accept mass vaccination, as the only remedy for returning to a less than normal situation, is only the first step.
- The massive economical melt-down is leading to a financial melt-down of epic proportions, causing states and currencies, at least in Europe, to collapse totally.
- Based on the economic ruin and catastrophe, it is likely that martial law will be introduced, a result of the economic collapse and the coming social unrest.
- The financial crisis will most likely lead to the collapse of both banks and central banks, and loss of private property in a massive scale, to the benefit of the ultrarich elite only.
- New bail in rules, and delays of financial reporting, has only delayed this crash.
- On top of all of this, and other measures, the medium and long-term effects of both the Cov-SARS2, as well as the “Vaccines” will soon kick in, causing massive illness and death of biblical proportions, never seen before.
- It is utmost urgent, that ICC will take immediate action, taking all of this into account. And take urgent action to force a full stop of vaccination and all types of illegal warfare. By taking action, forcing the Norwegian Government, by a Court order, in the legal form of a temporary injunction, demanding immediately, full stop of vaccination and all types of illegal warfare.

Article 8 bis3

Crime of aggression

1. For the purpose of this Statute, “crime of aggression” means the planning, preparation, initiation or execution, by a person in a position effectively to exercise control over or to direct the political or military action of a State, of an act of aggression which, by its character, gravity and scale, constitutes a manifest violation of the Charter of the United Nations.

This is a global criminal conspiracy, which has been planned for several decades.

It is now obvious that “the plan” involves the ultrarich and leaders of most nation states, with a few exceptions. It is also clear that powerful think-tanks including WEF in Davos as well as the Club of Rome, and other NGOs like WHO and GAVI among others, in the center of this draconian criminal conspiracy.

UNDER THE OFFICIAL SLOGAN; “BUILD BACK BETTER, used by the President of WHO, the President of USA, as well as the President of WEF.

The goal of the activity is to create a new world order, through UN’s Agenda 2030, by dismantling all the Democratic Nation States, step by step, controlled by an un-elected elite and to destroy our freedom and basic human rights. Further to destroy small and medium sized businesses, moving the market shares to the largest corporations, owned by the Global Elite. The fulfilment of this goal will most likely lead to full enslavement of mankind.

This is being done by means of the threat from both a dangerous biological weapon, the virus, the vaccines, the testing test pins, the mask mandates and all other measures.

All of which constitute not only a breach of National laws, but also a fundamental breach of the Charter of the United Nations and the Treaty of Rome and our Fundamental Human rights. And finally, this document proves, that the Treaty of Rome, is violated extensively on Chapter 6, 7 and 8th of the International Criminal Court Code.

2010; The Rockefeller Foundation; “Lock-step” introduced as a “scenario”.

<https://www.youtube.com/watch?v=pEpWMkOsNTw>

David Rockefeller; “1994”. 27 years ago. Linked to his “2002” memoirs;

International Court Case filed 11.1.2021, to be heard 3.7.2021, in Canada.

Court case connected to an International network of lawyers.

The case has been filed for Canada in Ontario by Michael Swinwood as part of the worldwide legal team of Reiner Fuellmich.

This case will start to be heard only on 3.7.2021, but we would argue that there is a very urgent need to take action immediately.

Some information connected to this case;

“It is increasingly clear that behind this covid cum vaccination drive, there is a eugenics agenda of gigantic proportions. This has recently also been recognized by the leading German Human Rights lawyer, Dr. Reiner Füllmich, a member of the Corona Investigative Committee, which investigates globally on the prosecution of fraudulent reporting of covid- vaccination, testing and leading to fraudulent “case figures” – and to a massive drive to instill fear in the population. He and his team are launching several Class Action suits in the US and in Canada, and several lawsuits against individuals and institutions in Europe and the US. He calls these coming trials “Nuremberg 2”, after the Nuremberg trials following WWII. In a recent interview (12 April 2021), Dr. Füllmich said he sees the light at the end of the tunnel. He also said about Corona measures,

Dr. Reiner Fuellmich – a top German trial lawyer who won lawsuits against Deutsche Bank and Volkswagen – is leading a team of 34 lawyers prosecuting global officials over COVID-19 lockdowns. Their class-action lawsuits target those they believe are responsible for the lockdowns, from local level politicians to the World Health Organization (WHO) and pharmaceutical companies. They seek damages for people negatively impacted by lockdowns, saying it is a deliberate crime against humanity and must be legally qualified as crimes against humanity, as defined in Section 7 of the International Criminal Code.

“These are the worst crimes against humanity ever committed. The few people who can still think independently, about 10 to 20 percent of the population, they know that the question was never about a virus or human health, but about a massive thinning of the world population, and total control.”

Date; 8.5.2021. A scientific report (x2) defining “Covid” to be a blood vascular disease!

Date; 8.5. 2021. A “Popular” report describing the same as above. A real shaker report.

Defining the “Virus as a Bio weapon” and the “vaccine” to create a spike protein with the very same issues.

APPENDIX B.

THE CLUB OF ROME.

“The First Global Revolution”; 1972.

<https://ia800202.us.archive.org/33/items/TheFirstGlobalRevolution/TheFirstGlobalRevolution.pdf>

EXTRA LINK TO THE “MARXIST UMBRELLA” OF IT ALL.

Now, The Club of Rome calls it “2.0”. Meaning;

The 2nd Global Revolution. Meaning a new “Marxist revolution”.

Most influential organizations begin with the meeting of a few like minds. In 1965, Aurelio Peccei, an Italian industrialist, made a speech that proved inspirational to Alexander King, the Scottish Head of Science at the OECD. The two found that they shared a profound concern for the long-term future of humanity and the planet, what they termed the modern ‘predicament of mankind’.

Three years later, King and Peccei convened a meeting of European scientists in Rome. Although this first attempt failed to achieve unity, a core group of like-minded thinkers emerged. Their goal: to advance three core ideas that still define the Club of Rome today: a global and a long-term perspective, and the concept of “problematique”, a cluster of intertwined global problems, be they economic, environmental, political or social.

At the group’s first major gathering in 1970, Jay Forrester, a systems professor at MIT, offered to use computer models he had developed to study the complex problems which concerned the group more rigorously. An international team of researchers at the Massachusetts Institute of Technology began a study of the implications of unbridled exponential growth. They examined the five basic factors that determine and, in their interactions, ultimately limit growth on this planet – population, agricultural production, non-renewable resource depletion, industrial output and pollution.

In 1972, the Club’s first major Report, *The Limits to Growth* was published. It sold millions of copies worldwide, creating media controversy and also impetus for the global sustainability movement. This call for objective, scientific assessment of the impact of humanity’s behavior and use of resources, still defines the Club of Rome today. While *Limits* had many messages, it fundamentally confronted the unchallenged paradigm of continuous material growth and the pursuit of endless economic expansion. Fifty years later, there is no doubt that the ecological footprint of humanity substantially exceeds its natural limits every year. The concerns of the Club of Rome have not lost their relevance.

We are in the midst of a Planetary Emergency, facing climate, biodiversity and health crises. Too often, these emergencies are viewed in siloes, when in fact there is an urgent need to address them as one integrated challenge. By bringing back balance between people, planet and prosperity through implementing the Planetary Emergency Plan, we can emerge from emergency and ensure long-term resilience and wellbeing within our planetary boundaries.

CLIMATE – PLANETARY EMERGENCY

Coupled with securing long-term human health and wellbeing, climate change and biodiversity loss are today’s most pressing global challenges. For years, scientists warned about the risks of straying beyond our planetary boundaries. [The Limits to Growth](#) report issued the first warning about unsustainable human activity on our planet 50 years ago. In 1972, its authors made the case that unlimited growth in population, material goods and resources on a finite planet would eventually lead to the collapse of Earth’s environmental and economic systems. Yet, it was only in 2020 that the public at large experienced the real impact of the encroachment of humanity on these limits through a zoonotic disease called COVID-19.

Living our lives as if Earth is infinite and shock resistant as we are doing today, is pushing our planet towards a series of tipping points that will become the greatest existential threat to humanity. Decades of exponential consumption and population growth have come to imperil the Earth’s climate and life-supporting systems, while reinforcing social and economic inequalities globally. We find ourselves in the midst of a Planetary Emergency, facing interconnected and mutually reinforcing climate, biodiversity and health crises.

The Club of Rome’s historical recognition of the existential nature of this threat, the need for an integrated emergency response and the opportunity for transformation that emergence offers, is the unique contribution that the Club of Rome wishes to bring to the global community.

THE PLANETARY EMERGENCY PLAN

Too often, interconnected crises are viewed in siloes, when there is an urgent need to address them as one integrated challenge. [The Planetary Emergency Plan](#), which was drafted in partnership with the Potsdam Institute for Climate Impact Research (PIK), aims to do just that.

First published in 2019, the Planetary Emergency Plan provides a set of key policy levers to address the cross-cutting challenges of climate change, biodiversity loss and human health and wellbeing. The Plan outlines a vision of transformation and regeneration; a roadmap for governments and other stakeholders to shift our societies and economies to bring back balance between people, planet and prosperity. Only then can we truly emerge from emergency. The Plan is a novel contribution to the emergency debate,

recognising the inextricable interconnectedness of the three challenges referred to above and providing an alternative approach to conventional siloed, sectoral policy action. It combines a focus on protecting and restoring our Global Commons with implementing a series of economic and social transformations to guarantee the long-term health and well-being of people and planet.

The first edition of the [Planetary Emergency Plan](#) was launched at WWF's Leaders for Nature and People event in September 2019, on the sidelines of the UN Climate Action Summit. The Plan has since been infused into [international discussions](#) on climate, biodiversity, sustainable development and [global risks](#), providing The Club of Rome with unprecedented entry-points at the highest levels of decision-making. It forms the foundation of a global Planetary Emergency Partnership and has inspired [global campaigns](#) and [policy efforts](#).

In the first year since the publication of the Plan, the world has changed significantly. COVID-19 has exposed our vulnerabilities and has reinforced the case for emergency action. The Club of Rome and PIK initiated a revision process for the Plan, in order to ensure that the [Planetary Emergency Plan 2.0](#) accurately reflects the convergence of three urgent crises (climate, biodiversity and health) and guides the work of the Planetary Emergency Partnership post-COVID. The Plan 2.0 was presented during the [Earth Overshoot Day](#) on 20 August 2020.

THE PLANETARY EMERGENCY PARTNERSHIP

One year after the publication of the first Planetary Emergency Plan, the Club of Rome and Potsdam Institute, with the support of WWF, launched the [Planetary Emergency Partnership](#) to support the delivery of the Planetary Emergency Plan. Its goal: to advocate for a global Planetary Emergency declaration and to implement the commitments and actions set out in the Plan.

Born from the need to bring together siloed voices from the climate, biodiversity and health communities to adequately address the emergency we face, the Partnership has grown from 30 Partners in late 2019 to over 300 Partners by the end of 2020. The strength of the network is its diversity: the Partnership brings together civil society organisations, academics, scientists, business leaders and public officials from across the globe and climate, biodiversity/nature and health sectors.

As a coalition of coalitions, the Partnership provides one of the largest, unbranded civil society coordination platforms to help build for a successful 'triple crown' of the UN Food Systems Summit, CBD COP15 and COP26 summits in 2021.

Rethinking Finance

The global financial system is currently at the service of an outdated economic paradigm. It acts as a means of wealth accumulation for a narrow elite, whilst disregarding the negative externalities of environmental damage and social inequalities. A new, sustainable finance system will be a core pillar of a new economy which serves both humanity and the planet.

Financing Change, Changing Finance

With a view of moving the current sustainable finance discussion from surface changes to the deep shift needed in our relationship to money and the existing finance system at large, the new Club of Rome Finance Impact Hub brings together real economy actors, investors, thought leaders to address core systemic alterations needed to support a well-being economy in balance with nature and responding to core global tipping points.

The Finance Impact Hub was launched on 20th February 2020 with a high-level roundtable at the Club's new EU office, housed at Triodos Bank in Brussels. It convened officials from the European Institutions, EIB, ECB, Central Banks, Impact Investors, Finance Institutes, Foundations, Academics, and Members of the Club of Rome. Its primary objective was to explore key areas of change and existing leverage points and commence a co-creation partnership with a community of champions.

The spirit of the new Finance Hub is anchored in the seminal report to The Club of Rome, "The Limits to Growth" (1972), where calls were made for a deep-systems shift away from conventional finance models to one at the service of people-planet-prosperity. A series of publications since have continued to call for this shift. In particular, the Club of Rome's Climate and Planetary Emergency Plans published in September 2019, calling for a decade of action that will enable the necessary change in systems to ensure long-term environmental and social sustainability.

“The end”

WE WANT TO REPEAT THE REMEDY FOR ALL OF THIS AS FOLLOWS;

It is utmost urgent, that ICC will take immediate action, taking all of this into account.

And take urgent action to force a full stop of vaccination and all types of illegal warfare.

By taking action, forcing the Norwegian Government,

by a Court order, in the legal form of a temporary injunction,

demanding immediately, full stop of vaccination and all types of illegal warfare.

“signed by the undersigned”.
