Letter of Intent

By this letter, Åfjord kommune expresses its intention to take part in the realization of the project “Innovation, change and development in small and medium sized companies – relevance and impact of public measures to SMEs in a context of economic crisis”.

The project owner is SINTEF Digital. Åfjord kommune is a collaborating partner and will play a role in the project to:

- Establish contact and initiate cooperation between the research project and the participation companies
- Be an active discussion partner within the project, with emphasis on giving input on regional and industry context
- Participate in the project steering committee
- Be active in the dissemination of the project results to member companies as well as to other regional actors.

The role is described in more detail in the project description.

Per O. Johansen
Rådmann
