Hei Pål Erik,

Sender deg regulerings kartet for Valsneset med kaien satt inn på det. Det ser ut til at kaien blir utenfor det regulerte havneområdet. Det må derfor søkes om dispans på dette til kystverket, er det du el kommunen som må gjøre det?

Må nok også sendes ut en ny nabovarsel.

Jeg jobber nå med å få til en avtale med Kopparen Utvikling ang den offentlige kaien, da en avtale som sier at den offentlige kaien skal ha «forkjørs rett» foran våre båter hvis det kommer båter større enn 75 meter lang på den offentlige kaien. Vil sende deg denne avtalen så raskt jeg har fått den i boks.

*Med vennlig hilsen/ Best regards*

Nina and Mick,

Please find attached a PDF drawing showing the complete facility on the Reguleringsplan for Valsneset.

As we have never been able to get any digital drawing from Bjugn Kommune we have used the PDF version from the home page of Bjugn Kommune. That means the accuracy is not 100% but close.

Please let me know if this is sufficient to get the approval from Bjugn Kommune.

Venlig hilsen/Kind Regards/Saludos Cordiales

Benny,

Out of today's discussion it seems if we can show «our pier» position with their designated area over-layed onto our map the kommune will allow us to move ahead, I know there's a whole issue with scaling but if there's a way to get his done I figured Fleming is the person, what do you think? Apparently she will approve us to move ahead if we show we are within the boundaries on a diagram like this and we don't need anything further from the coast authorities to start,

Best regards Mick
