

## **Saksprotokoll i Utvalg for strategi og drift - 03.12.2020**

### **Behandling:**

Øyvind Næss (SV) fremmet følgende tillegg til kommunedirektørens innstilling:

"The municipality of Ørland in Norway have decided to join the network of Solidarity Cities. We have great concern for the welfare of migrants all over the world.

We are committed to a refugee policy based on humanitarian principles and to offer arriving refugees a quick path to integrasjon.

We believe that every child and adult have a right to a peaceful life with equal opportunities and with participation and protection against discrimination.

Ørland is joining the solidarity cities network because we believe in responsibility and solidarity, and in the power of standing together with likeminded cities."
