Hi!

My name is Viktor Novoselov. I'm 69 years old. For 40 years I've been working as a teacher at the High School in Russia.

For many years I studied history and culture of your beautiful country. This year I wanted to travel to Norway and different places in the country. Unfortunately, I had to cancel this trip because of COVID-19 pandemic. I'm very disappointed, but it's impossible to change something.

Instead, I decided to give lessons about Norway to my students, but I don't have much tourist information. I will be very thankful if you send me some printed information and paraphernalia like pens, stickers, notebooks with logo on. I planned to buy all of them myself during vacation in your country, but it was cancelled. I suppose that students should have such an opportunity.

In that case I can give it to our students (9 people) during school activities and I hope these presents will motivate them to learn more carefully and encourage them for future travels in Norway — it's a very effective way of promotion.

I suppose you receive many similar requests – hope you will make an exclusion and will grant it.

Please feel free to share my story. And let me wish you to stay in good health, success in your hard work and all best wishes.

My address:
